HNC Section 522: "Any hulk, derelict, wreck, or parts of any ship, vessel, or other watercraft sunk, beached, or allowed to remain in an unseaworthy or dilapidated condition upon publicly owned submerged lands, salt marsh, or tidelands within the corporate limits of any municipal corporation or other public corporation or entity having jurisdiction or control over those lands, without its consent expressed by resolution of its legislative body, for a period longer than 30 days without a watchman or other person being maintained upon or near and in charge of the property, is abandoned property."

Commercial vessels include those vessels for which the most recent registration or documentation was commercial, even though that registration or documentation may have lapsed.
- c. If Grantee is reimbursed for the costs related to the surrender, abatement, removal, storage, and/or disposal of an eligible water hazard by the registered or legal owner or other person or entity known to have an interest in the water hazard, then the water hazard shall no longer be eligible for funding under this Agreement. Grantee shall notify DBW in writing of such reimbursement and shall return all funds disbursed by DBW to Grantee with respect to such water hazard immediately.

28. INDEMNIFICATION

DPR shall not be answerable or accountable in any manner for, any loss or expense by reason of any damage or injury to person or property arising out of or related in any way to activities carried out by Grantee, its agents, officers, contractors, subcontractors and/or employees.

Under this Agreement, Grantee shall protect, hold harmless, indemnify and defend DPR, its agents, officers, and/or employees against any and all actions, claims, and damages to persons or property, penalties, obligations and liabilities that may be asserted or claimed by any person, firm, association, entity, corporation, political subdivision, or other organization or person arising out of or in connection with Grantee or Grantee's contractor's or subcontractor's activities hereunder, whether or not there is concurrent passive negligence on the part of DPR, its agents, officers, and/or employees.

29. FUNDS ASSIST

The Funds Assist process enables grantees with unused funds to assist other participating SAVE agencies in need. For up to six (6) months prior to the expiration date of the grant, Funds Assistant is voluntary. Thereafter, at DBW's discretion, participation shall be mandatory for grantees with anticipated remaining balances. Failure to participate shall negatively affect grantee's score on future grant applications for a period of up to three (3) years.

The Funds Assist process works as follows:

- a. DBW will email all grantees to identify if funding will go unused or if all funding is needed. Grantee shall respond with a confirmation: all funds will be utilized, if all funds will go unutilized and how much, or if funds are needed and how much. DBW will prepare grant amendments to reduce or add funds to grantees as appropriate. Grantee shall execute amendments in a timely manner.
- b. If grant amendments are not possible, DBW may require collaboration and reimbursement between agencies. Specifics for this process will be discussed with participating agencies when needed.

30. 90-DAY RETURN OF GRANT DOCUMENTS TO DBW

Grant agreements issued to the awarded agency must be completed and returned within 90 days of the date of issuance according to the instructions issued by DBW with the grant agreement. If extenuating circumstances prevent the ability of the agency to meet this deadline, approval from DBW must be obtained in writing. DBW retains the right to determine approval or denial of extensions.

31. ANTI-CORRUPTION

Grantees are required to report to DBW any written, suggested, or verbally implied cases whereby a contractor, subcontractor or other service provider increases their fee(s) due to the existence or balance of a SAVE grant in order to increase their fee(s). Such service providers may be investigated for price gouging. If investigated, a two-year history of charges applied to work of all known SAVE grant work by that contractor will be required by DBW for review.

32. AQUATIC INVASIVE SPECIES

Grantees are required to ensure that they and all their sub-contractors take all necessary precautions to prevent the spread of aquatic invasive species when removing and transporting

vessels and other marine debris. At minimum, precautions will include draining all water and ensuring that material is dry prior to transporting from the water to a land-based location. Guidelines for preventing the spread of aquatic invasive species can be found at: dbw.parks.ca.gov/mussels.

Effective January 1, 2009, all Invitations for Bids (IFB) or Requests for Proposals (RFP) for goods or services must address the requirements of the Darfur Contracting Act of 2008 (Act). (Public Contract Code sections 10475, et seq.; Stats. 2008, Ch. 272). The Act was passed by the California Legislature and signed into law by the Governor to preclude State agencies generally from contracting with “scrutinized” companies that do business in the African nation of Sudan (of which the Darfur region is a part), for the reasons described in Public Contract Code section 10475.

A scrutinized company is a company doing business in Sudan as defined in Public Contract Code section 10476. Scrutinized companies are ineligible to, and cannot, bid on or submit a proposal for a contract with a State agency for goods or services. (Public Contract Code section 10477(a)).

Therefore, Public Contract Code section 10478 (a) requires a company that currently has (or within the previous three years has had) business activities or other operations outside of the United States to certify that it is not a “scrutinized” company when it submits a bid or proposal to a State agency. (See # 1 on the sample Attachment).

The following sample Attachment may be included in an IFB or RFP to satisfy the Act’s certification requirements of bidders and proposers.

If Yes, describe

The Solano County Sheriff's Office has a full time Marine Patrol Bureau consisting of (4) full-time Deputy Sheriffs and (1) Deputy Sheriff-Sergeant. The Sheriff's Office goal is to keep the Solano County waterways safe for commercial and recreational boaters through comprehensive education, boating safety, enhanced enforcement and routine patrols. The Marine Patrol Bureau is available to perform educational and enforcement patrols every day of the year, including all major holidays. The bureau is available for emergency callouts 24-hours a day for distressed boaters, search & rescue operations, and vessel accident investigations that occur outside normal hours of operation. 7. Did your agency have a plan to increase the number of surrendered vessels accepted over the last calendar year? If so, what was the plan and what were the results? Additionally, what plans does your agency have to increase the number of surrendered vessels you accept this year?

The Solano County Sheriff's Office has been actively accepting surrendered vessels over the past calendar year. We have made social media posts regarding the Vessel Turn-In Program to spread awareness of the program and how to participate. We recognize that many boat owners feel burdened by having vessels that they never intend to make seaworthy. We encourage the public to contact our office for information regarding the VTIP program. Furthermore, our Public Information Officer provides community members with information and brochures at several public events throughout the year. We regularly talk with our local harbor masters and provide our local marina's with information on the Vessel Turn-In Program. We get many inquiries from the California State Parks, Division of Boating and Waterways list of participating SAVE Grant agencies.

The Solano County Sheriff's Office has developed a strong working relationship with a local landfill. The landfill provides services at a reduced rate, allowing adequate funding for additional community members to participate.

The results have been positive, as we routinely accept surrendered vessel. Additionally, our deputies are very engaged with the boating community and local marinas to advertise the program by word-of-mouth. Our goal is to ensure that the community is aware of this program and has easy access to information on how to participate, ultimately increasing the number of surrendered vessels we are able to accept. We also accept vessels from outside the jurisdictional limits of the County of Solano, when the boat owner's home county is not a SAVE participating agency or that agency is out of funding. We give the home agency the first right of refusal.

8. How often does your agency coordinate with local boating groups or marinas to inform them of the surrendered vessel program? Describe activities and identify groups/marinas contacted in the last calendar year. (Answer only if you selected 'Yes' to Q 5.)

Last year we contacted the Harbor Masters at the Benicia Marina, Glen Cove Marina, and Delta Marina. These meetings occur numerous times throughout the year. During these meetings, we discuss various marine related issues including any potentially unseaworthy vessels that might be viable candidates for acceptance into the surrendered vessel program. The Harbor Masters are advised to contact the registered owners of these vessels and to provide them with the VTIP program information as well as the contact information for the Solano County Sheriff's Office Marine Patrol. The Harbor Masters understand that it is in their best interest to take a proactive approach to the unseaworthy vessels in their marinas to avoid potentially large and costly problems for themselves in the future. This also provides legal alternative options to the vessel owners so these are not removed from the marinas and abandoned in the surrounding waterways to cause future

environmental and navigational hazards.

9. Does your agency accept surrendered vessels from boaters outside its jurisdiction? ☒ Yes ☐ No

If so, how many surrendered vessels have you received in the last calendar year? 1

If not, identify why?

10. Describe how your agency monitors abandoned vessel activity in your jurisdiction. Select all that apply.

- ☒ Routine patrol of jurisdiction
- ☒ Visit marinas/dockwalks
- ☒ Direct contact with boat owners
- ☒ Check vessel registration
- ☒ Check seaworthiness (listing, occupancy, trash, bilge running, operable lights)
- ☒ Abandoned vessel mapping and tracking
- ☒ Multi-agency coordination
- ☐ Utilize NASA data

Number of methods selected to monitor abandoned vessel activity

11. Describe additional methodologies, if any, (besides participation in SAVE) your agency uses **to prevent abandoned vessels within its jurisdiction?**
- Solano County has an ordinance for all Solano County waterways which limits recreational mooring/anchoring to 96 hours within the County of Solano. Vessels at anchor within our waters are typically identified quickly and the owners are advised of the ordinance and consequences for failing to comply, such as removal of the vessels at the owner's expense. This helps prevent owners from anchoring their vessels for extended periods of time and allowing their vessels to slip into a derelict or unseaworthy condition.

Objective 2: Control

12. Describe methodologies, if any, your agency has implemented to control and **prevent abandoned vessels from entering its jurisdiction from other areas.**
- The Solano County Sheriff's Office Marine Patrol participates in the Neptune Coalition meeting by the US Coast Guard Sector San Francisco. We also participate in our Delta Officer's Information Transaction meetings (DOIT) which is a coalition of local marine law enforcement agency in the Delta region, including the United States Coast Guard, the CA Department of Fish & Wildlife, and the Sacramento, San Joaquin, Yolo, and Contra Costa County Sheriff's Offices. Attendance at these meeting allows us to keep up with current trends in boating safety, transient migration patters, and marine law enforcement activities, such as marina cleanouts and evictions, which can lead to an influx of derelict and unseaworthy vessels anchoring in our AOR. Participation in these groups allows us to maintain vigilance in our AOR and prevent potential abandonment problems developing into major navigational and environmental hazards.
13. Does your agency collaborate with neighboring SAVE grantees that manage abandoned and surrendered vessels? ☒ Yes ☐ No

If yes, list agencies and describe collaboration.

The Solano County Sheriff's Office partners with all allied law enforcement agencies, whether on or off the water. Partnering agencies include the Sheriff's Offices of Sacramento, Contra Costa, San Joaquin, Sonoma, Marin, Napa and Yolo. Partnering Police Departments include, San Francisco, Oakland, Richmond, Pittsburg, Suisun City, Vallejo and Sacramento. Furthermore, the Solano County Sheriff's Office partners with state agencies such as the California Department of Fish & Wildlife, and the California Highway Patrol.

Collaboration efforts include saturation patrols (Delta Blitz), joint SAR operations, security zone enforcements during the removal of tow operations for abandoned/ derelict vessels, and dive/recovery operations. We also stay in contact and information-share through our participation in both the Delta DOIT, Neptune Coalition meetings and the California Boating Safety Officers Association.

The Solano County Sheriff's Office accepts vessels into our surrendered vessel program from non-VTIP participating agencies as well as from neighboring entities that have exhausted their available funding for such projects. By doing so, we prevent potential abandonment issues by the making participation in VTIP as simple and accessible as possible for the general public.

14. Does your agency have any special circumstances and/or conditions that contribute to abandoned vessels in your jurisdiction? Explain circumstances/conditions.

Solano County is often referred to as the "Gateway to the Delta." Positioned between the San Francisco Bay area and the San Joaquin Valley, Solano County has the only waterway that connects the two regions. Thus, maritime traffic traversing between the two regions must transit the waterways of our AOR.

The AOR of Solano County contains numerous large, shallow bodies of water. Due to boater inexperience and unfamiliarity with the area, vessels routinely run aground in these areas. For safety and medical care, all persons are generally removed from those vessels and taken to the nearest safe harbor. When faced with the repair and recovery costs of retrieving their vessels, many of the owners simply choose to abandon their vessels. Its is difficult to track down the responsible parties as some are from outside of the local areas (transiting through) or the responsible parties never properly registered the vessel in their name through CA DMV.

Like much of the State of California, Solano County has seen a growing unhoused population. Often the unhoused acquire unseaworthy vessels through lien sales, auctions and as an alternate means of disposal/ liability release by the owners. Frequently, these vessels are sold for cheap and in various states of disrepair to people who do not possess the knowledge, skill, or financial means to properly maintain them. Often times people do not have the financial resources to pay for slip fees, liability insurance or safe harbor for their vessels. The dilapidated vessels are then moored in our waterways where they continue to deteriorate until they finally sink and are considered abandoned.

Objective 5: SNHAP

Per HNC 525, when evaluating an application DBW shall give greater weight to applicants who have an existing SNHAP.

15. Does your agency have a Submerged Navigational Hazard Abatement Plan (SNHAP)? ☒ Yes ☐ No

If Yes, attach copy.

[45985_0_606_Solano County Sheriff_s Office - SNHAP Plan - Urlaub.docx](#)

16. Summarize the detailed process in your SNHAP for the abatement of non-vessel related navigational hazards and commercial vessels.

As Deputy Sheriff's, we are limited in our abilities and skills to remove non-vessel related navigational hazards/marine debris and commercial vessels. We will coordinate with our local, state and federal cooperators to evaluate and remove non-vessel related navigational hazards/marine debris and commercial vessels. Currently there is a funding gap to remove commercial vessels from state waters. We continue to work with the California Boating Safety Officers Association and legislative branch members to identify future funding opportunities. We also discuss with other maritime cooperators and law enforcement marine patrol units for the latest best practices in removing non-vessel related navigational hazards/marine debris and commercial vessels.

If a Marine Patrol Deputy believes that they can safely remove the hazard, then they will generally do the following:

- Document the GPS location of the debris and its general condition
- Document whether or not it presents a navigational hazard
- Identify any registration for commercial vessels
- Photograph the object
- Determine a plan to remove and dispose of the object and any needed funding sources.

17. Identify the SNHAP's funding source for the control/abatement of **non-vessel related** water hazards, hazardous floating debris (such as logs), submerged objects and abandoned piers and pilings

The Solano County Sheriff's Office Marine Patrol Bureau takes it upon itself to remove non-vessel related water hazards and floating debris believed to be a navigable hazard to vessel operators. We either bring aboard or tow the hazard to a safe location to dispose of the debris in the most cost efficient manner possible depending on the nature of the hazard or debris. There is limited funding for the control/abatement of non-vessel related water hazards. When we come upon them they are evaluated on a case by case basis to determine if general fund money will be utilized to abate the hazard.

Objective 3: Cost Effectiveness

Has your agency been involved in abatement activities during the past 3 calendar years? ☒ Yes ☐ No

If yes, provide the average cost to remove and destroy vessels in the chart below:

	ABANDONED VESSELS	AVERAGE COST	
18.	Vessels Less Than 30'	more than \$3,000	LAST CALENDAR YEAR
18a.	Vessels Less Than 30'	more than \$3,000	LAST 3 CALENDAR YEARS

2021	0.00	0
2022	100,000.00	1

23. Identify the number of personnel currently working in the program with more than two years' experience managing the SAVE program. 1

24. What process/method/practice have you implemented in the last 24 months to reduce the grant program's cost of removing and destroying abandoned or surrendered vessels?
- The Solano County Sheriff's Office Marine Patrol Bureau has an established working relationship with Recology Vacaville/Solano who own and operate the Hay Road Landfill we utilize as the disposal site for surrendered vessels. Utilizing the landfill keeps costs to approximately \$300 to \$500 per vessel. We also use strategies such as leveraging vessel insurance to help share costs involved in removing and destroying unseaworthy vessels. We also utilize other strategies such as using our rotational tow companies when possible to remove vessels and also consolidating multiple vessels into one bigger project to help with the associated costs of removal, destruction and disposal of these vessels. We also following our county's competitive bidding process but unfortunately for the last several years only one company, Lind Marine, has placed a bid to help us remove Abandoned Vessels from our waterways. Lind Marine also assists us with VTIP vessels that are in the water and do not have a trailer to get the vessel to the local landfill. The Recology Hay Road Landfill is limited in the hazardous waste that they can take, therefore sailing vessels with lead keels have to be sent to Lind Marine for proper disposal.

25. Does your agency have additional funding sources (other than SAVE) for removal and disposal of abandoned vessels in the event you run out of grant funding or are not awarded the full grant request? ☒ Yes ☐ No

If yes, list

SAVE Grant is the primary funding source. On emergency and case by case basis we have used General Fund sources for additional funding when there is insufficient grant funding available.

26. Does your or a partner agency have vessel storage capabilities that can be used by your agency at no cost to SAVE? ☒ Yes ☐ No

27. Does your agency have access/ability to dispose of vessels at a local or neighboring landfill? ☒ Yes ☐ No

28. What is the number of abandoned vessels in your jurisdiction that will be ready for disposal during this grant period, if awarded? 1

How were these vessels identified?

There is a vessel that was abandoned along the Sacramento River that is registered to a marina in the region. The marina is refusing to remove the old sunken vessel due to previously selling it. The vessel sits at the waterline and visible from the water and shoreline. California registration numbers were visible

on the bow of the vessel.

Most abandoned vessels currently in Solano County will be removed and disposed of using SAVE 24/25 funding. SAVE 25/26 funding will pay for anticipatory vessel abandonments during the 25/26 grant cycle as we did not receive full requested funding in the SAVE 24/25 grant.

29. What is the number of surrendered vessels in your jurisdiction that will be ready for disposal during this grant period, if awarded? 1

How were these vessels identified?

All VTIP vessels currently in queue, will likely be disposed of using SAVE Grant 24/25 funding. SAVE 25/26 Grant funding will pay for anticipatory VTIP vessels during the SAVE 25/26 grant cycle.

30. Did you collaborate with marinas in your jurisdiction to identify the number of potential surrendered vessels listed in your budget? ☒ Yes ☐ No

If yes, list marinas.

Delta Marina, Rio Vista
Arrowhead Marina, Courtland
Benicia Marina, Benicia
Glen Cove Marina, Vallejo
