As a member of this board/council/committee/com mission, what might you hope to achieve?

As a member of the library council, I hope to listen to the needs of the community and to help shape the programs and resources that help others. I want to be a part of the education and awareness that strives for everyone to access and appreciate the library. The committee looks at data driven usage and feedback and adapts to the needs of the people. I have enjoyed my time working with the Solano County Library Council and if I am needed for another term with the restructure of this group, I would like to participate.

As a member of this board/council/committee/com mission, what do you think you might contribute to help it fulfill its missions and goals?

As a member of the Solano County Library Advisory BI would contribute to help fulfill its missions and goals by being an active and engaged participant. I am a teacher and parent of three. I consistently use the library resources, and I am naturally interested because I know how vital its resources are to our community. Using the resources and knowing the personnel at the library helps me bring applicable feedback and input to the committee. I am open minded and feel comfortable asking questions about financial information and structures. After every meeting my understanding about new programs expands.
