

Solano Mobility Programs Summary Of Services Provided

Travel Training Program:

The Travel Training Program provides free training to help individuals learn to use public fixed route transit safely and confidently within Solano County and beyond. Training can be done individually, in a classroom setting, or on group field trips. STA renewed the Travel Training contract with Independent Living Resources (ILR) for another 2 years. ILR has been the program contractor since the program was implemented in 2014. ILR experienced difficulties with staff retention in the first year of their renewed contract, and training did decrease.

- A total of 170 Travel Trainings (Individual, Field Trip, and Classroom) were conducted.
- 35 presentations to 842 audience members were completed.
- 4,399 individuals received information during 62 Outreach activities.

Countywide In-Person Americans with Disabilities Act (ADA) Evaluations:

People unable to use fixed route public transit service because of a cognitive or physical disability can be evaluated to become ADA paratransit certified. Becoming certified allows access to services such as curb-to-curb paratransit and reduced taxi programs. STA contracted with Paratransit Inc. in July 2023 to conduct the ADA In-Person Evaluations.

- A total of 454 Evaluations were conducted.
- In-person interviews are being conducted.

Taxi Card Program utilizing the PEX Card:

The Intercity Taxi Card Program provides subsidized rides utilizing a pre-paid debit card to qualified ADA individuals for taxi rides between transit service areas. They can purchase in person or over the phone with Solano Mobility.

- 2,485 Intercity Taxi trips were taken in FY2024-25, which is about 200 less than FY23-24.
- The average cost per ride is \$66, of which the customer pays 20%
- Solano County TDA funds are used as match funds for contributions from partner agencies. A reconciliation is performed annually based on prior year actuals.

Medical Trip Concierge Program (GoGo Grandparents):

This popular program provides subsidized Uber and Lyft rides through GoGo Grandparent, for Solano County residents (60+), ADA-certified individuals, and Veterans to get to and from medical appointments, within Solano County. The GoGo Grandparents Program total rides for this year surpassed last year's number and continues to be one of the most popular Solano Mobility Programs.

- 27,708 rides were taken using the GoGo Programs. This represents a 7,000-ride increase over the last FY.
- The average cost per ride is \$15, of which the customer pays 20%
- Nearly 1,900 WAV rides were provided.
- Solano County TDA funds are matched 50/50 with State Transit Assistance Funds.

Veterans Mobility Program:

The Program, which began in April of 2022, allows veterans of any age to receive subsidized rides to medical appointments in Solano County as well as 3 locations in Contra Costa County:

- Martinez VA Clinic at 150 Muir Rd., Martinez, CA
- Med Evals (QTR Assessment Center) at 2280 Diamond Blvd., Ste. 520, Concord, CA
- The Hume Center at 1333 Willow Pass Rd., Concord, CA

The Veterans Mobility program participation started off slowly. However, with extensive outreach throughout the county, the program has begun to grow.

- 555 rides were provided to Veterans in FY2024-25, which is down by nearly half compared to the previous fiscal year.
- Program enrollment increased by 36% over last year, with 135 registered participants.
- *The statistics for this program are shown separately, but also incorporated into the total of the primary GoGo data on Attachment A.*

Faith In Action Volunteer Driver Program:

Faith in Action (FIA) provides a volunteer driver transportation service for Solano County seniors 60 years and older. The contract between STA and FIA is to provide transportation services to older adults, chronically ill, and people with disabilities who are County Medical Services Programs (CMSP) eligible and/or Medi-Cal eligible to medical and Medi-Cal related appointments.

- FIA provided 716 rides in FY2024-25, which is down from the 859 rides provided in FY2023-24.
- The average cost per ride is \$63, matched with donations from customers.

Equitable Access to Justice:

In partnership with the Solano Superior Courts, the Equitable Access to Justice pilot program eliminates transportation as a barrier to court participation by providing 100% subsidized rides to court appointments for jurors and collaborative court participants.

- The program provided 2141 rides in FY 2024-25. In FY 23-24, 602 rides were provided.
- The average cost per ride is \$18.
- Solano County TDA funds provide 80% of the cost, matched with a 20% contribution from the Solano County Superior Courts.
