**EXHIBIT B**  
**BUDGET DETAIL AND PAYMENT PROVISIONS**

**1. METHOD OF PAYMENT**

A. Upon submission of an invoice and Solano County vendor claim by Contractor, and upon approval by County, County shall, in accordance with the "Contract Budget" attached to this Contract as Exhibit B-1 and incorporated into this Contract by this reference, pay Contractor monthly in arrears for fees and expenses actually incurred the prior month, up to the maximum amount set forth in Section 3 of the Standard Contract. Monthly claims for payment should be submitted to County by the 15<sup>th</sup> day of the subsequent month.

B. Claims submitted by Contractor must meet the criteria set forth in section E below and be documented by a fiscal monitoring report (Exhibit B-2). Each invoice must specify actual charges incurred.

C. Contractor must request approval for transfers between budget categories or the addition of line items within a budget category, which are set forth in Exhibit B-1, when the cumulative amount of such transfers or additions exceed the lesser of \$10,000 or 10% of the total contract amount. Requests for transfers between budget categories or addition of budget line items within a budget category must be presented to the County on the County's "Budget Modification Request Form". Transfers between budget categories or addition of line items within a budget category that exceed the threshold may be made only upon prior written approval of County, which approval may be withheld in the sole and absolute discretion of County. County may authorize the transfers between budget categories or the addition of line items within a budget category under this section, except for indirect costs and capital expenditures (equipment or real property), provided that such transfers or additions do not substantially change the scope of services to be provided under this Contract and do not increase the contract amount.

D. Contractor must repay the County for any disallowed costs identified by County through monthly reports, audits, Quality Assurance monitoring, or other sources within thirty days of receipt of notice from County that the costs have been disallowed. Contractor agrees that funds to be disbursed under the terms of this contract will be withheld if repayment is not received by the County within thirty days of receipt of notice from County. Contractor may submit a written appeal to a disallowance to the County Health and Social Services Health Services Deputy Director, or designee, within fifteen days of receipt of a disallowance notice. The appeal must include the basis for the appeal and any documentation necessary to support the appeal. No fees or expenses incurred by Contractor in the course of appealing a disallowance will be an allowable cost under this Contract and will not be reimbursed by County. The decision of the County regarding the appeal will be final.

E. The following criteria applies to the Contract Budget submitted by Contractor under this Contract:

(1) Requests for payment of personnel costs must include positions, salary, and actual percentage of time for each position. If Contractor provides fringe benefits to part time employees, salary and fringe benefits must be pro-rated for non-full-time employees. Salaries are fixed compensation for services performed by staff that are directly employed by Contractor and who are paid on a regular basis. Employee benefits and employer payroll taxes include Contractor's contributions or expenses for social security, employee's life and health insurance plans, unemployment insurance, pension plans, and other similar expenses that are approved by County. These expenses are allowable if they are provided under established written policies and whether treated as direct or indirect costs, are equitably allocated to all related activities including federal awards.

(2) Salaries and benefits of personnel involved in more than one Contract, grant, or project must be charged to each grant based on the actual percentage of time spent on each grant or project. Timesheets for each employee whose time is charged to this Contract must be maintained by Contractor and available upon request by the County.

(3) Allowable operating expenses are defined as necessary expenditures exclusive of personnel salaries, benefits, equipment or payments to subcontractors. The expenses must be to further the program objectives as defined in Exhibit A of this Contract and be incurred (realized) during the invoiced period. County reserves the right to make the final determination if an operating expense is allowable and necessary.

(4) Indirect costs are shared costs that cannot be directly assigned to a particular activity but are necessary to the operation of the organization and the performance of the program. The costs of operating and maintaining facilities, accounting services and administrative salaries are examples of indirect costs. Contractor must have a negotiated indirect cost rate with a federal agency. A Contractor who does not have a such a negotiated indirect cost rate agreement may claim an indirect cost rate of up to 10% of modified total direct costs, as defined in 2 CFR part 200.68, provided the Contractor does not use the Direct Allocation Method of allocating indirect costs (as discussed in Appendix IV to Part 200).

(5) Regardless of whether Contractor claims indirect costs through a negotiated indirect cost rate, Direct Allocation Method or the 10% of modified total direct costs, Contractor must provide the County with a cost allocation plan that clearly differentiates between direct and indirect costs. Contractor ensures that the same costs that have been treated as indirect costs have not been claimed or budgeted as direct costs, and that similar types of costs in like circumstances have been accounted for consistently. Contractor will provide this plan to County upon request. In the event that Contractor is unable to provide County with an acceptable cost allocation plan, County may disallow any indirect cost billed amounts.

## **2. ACCOUNTING STANDARDS**

- A. Contractor shall establish and maintain a system of accounts for budgeted funds that complies with generally accepted accounting principles and practices for organizations/governmental entities as described in Exhibit C – section 13C. Additionally, Contractor must submit claims for payment under this Contract using either a cost allocation method or a direct allocation method.
- B. Contractor's cost allocation method must be supported by a cost allocation plan with a quantifiable methodology validating the basis for paying such expenditures. The cost allocation plan should be prepared within the guidelines set forth under 2 CFR Part 200, subpart E, Cost Principles and Appendix IV to Part 200, Indirect (F&A) Costs Identification and Assignment, and Rate Determination for Nonprofit Organizations.

B. Contractor further represents that Contractor possesses current valid appropriate licensure, including, but not limited to, driver's license, professional license, certificate of tax-exempt status, or permits, required to perform the work under this Contract.

## 7. INSURANCE

Contractor represents that Contractor will at all times faithfully, industriously and to the best of its ability, experience and talent, perform to County's reasonable satisfaction.
