Security Certificates

Many Cisco applications contain self-signed certificates that are issued by the applications upon initial installation. This first becomes apparent to County of Solano s when they use a web browser to connect to the applications for the first time to administer them and see a warning about an untrusted site. The County of Solano has the option of manually adding an exception (trusting that application) and then not seeing the warning in the future, but some County of Solano s find this too intrusive for their end users, especially for applications such as Finesse and CUIC.

To avoid the warning message from appearing on first connections, County of Solano can do one of the following:

- Add the self-signed certificates from all applicable Cisco applications servers to the list of trusted certificates on each end user computer.
- Issue a certificate for each applicable Cisco application server from their own internal trusted Certificate Authority (CA), enabling automatic distribution to the trusted clients of that CA.
- Obtain public certificates for all applicable Cisco application servers, issued by a trusted external CA, such as VeriSign or GoDaddy.

Note: when connecting to a server, the URL must match either the Subject field of the certificate, or one of the Subject Alternative Names (SANs) contained within the certificate. In addition, certificates have expiration dates (generally one to ten years after the date of issuance), and County of Solano will need to renew and upload new certificates before the current ones expire.

ConvergeOne will assist County of Solano with applying signed certificates issued by a CA to all required servers. County of Solano will issue and provide all required certificates.

GENERAL TERMS AND CONDITIONS

1. CLOSING OUT

A. County will pay Contractor's final request for payment providing Contractor has paid all financial obligations undertaken pursuant to this Contract or any other contract and/or obligation that Contractor may have with the County. If Contractor has failed to pay any obligations outstanding, County will withhold from Contractor's final request for payment the amount of such outstanding financial obligations owed by Contractor. Contractor is responsible for County's receipt of a final request for payment 30 days after termination of this Contract.

B. A final undisputed invoice shall be submitted for payment no later than ninety (90) calendar days following the expiration or termination of this Contract, unless a later or alternate deadline is agreed to in writing by the County. The final invoice must be clearly marked "FINAL INVOICE", thus indicating that all payment obligations of the County under this Contract have ceased and that no further payments are due or outstanding.

C. The County may, at its discretion, choose not to honor any delinquent final invoice if the Contractor fails to obtain prior written approval of an alternate final invoice submission deadline. Written County approval for an alternate final invoice submission deadline shall be sought from the County prior to the expiration or termination of this Contract.

2. TIME
