Mr. Huber provided additional information about public charge and potential impacts of the proposed rule change to public charge.

Public Health Officer Dr. Bela Matyas provided information on public charge as it related to public health.

Supervisor Hannigan commented on the challenges of educating the public about public charge and in opposition to the proposed change.

Supervisor Brown commented in opposition to the proposed change.

Chair Vasquez invited members of the public to address the Board on this matter and the following comments were received:

A) Dr. Loren Allio, Vallejo, commented on concerns with the proposed change to public charge.

B) Laura Jean Likover, Vallejo, commented on concerns with the proposed change to public charge.

C) Dennis Allen, Fairfield, commented on concerns with the intention of the proposed change and in opposition to the resolution.

D) George Guynn, Jr., Suisun City, commented in opposition to the resolution.

E) Ravi Shankar, Vallejo, commented in support of the resolution.

F) Carly Finkle, Food Bank of Solano and Contra Costa, commented in opposition to the proposed change and in support of the resolution.

In response to a question from Supervisor Spering, Ms. Finkle noted that an individual's status did not affect the ability for them to receive services from the Food Bank.

In response to questions from Chair Vasquez, Ms. Ching noted that there was a lot of confusion around immigration tests versus eligibility to public assistance. She advised that undocumented children had access to medical coverage. She noted that eligibility to public assistance programs had not changed and that assistance to the undocumented was for children and limited emergency medical coverage for adults. She advised that proposed public charge changes would include medical coverage, cash and housing coverage but would not change anything for eligibility to public assistance programs.

Dr. Bela Matyas noted that impacted individuals would be those that started the immigration process after the change went into effect.

Chair Vasquez noted that the confusion was whether it applied to those that are already receiving assistance or in the immigration process. He noted that the Legislation Committee had discussed the need for Eligibility Workers to be able to articulate the right information to clients.

Ms. Ching noted that staff had talking points and guidance for staff regarding how to communicate with the public regarding the public charge.

Dr. Matyas noted that there was concern about individuals not coming to get services out of fear and noted that this would require a different outreach to help them understand that anyone currently in the process were not impacted by the changes.

Chair Vasquez invited members of the public to address the Board on this matter and the following comments were received:

G) Laura Sheckler, Community Clinic Consortium, commented in opposition to the proposed change and concerns about impacts on health systems.

In response to a question from Chair Vasquez, Ms. Sheckler noted that patients were choosing not to enroll in programs out of fear which was causing a chilling effect.

H) Paula Bauer, Vallejo, commented in support of the resolution.

I) Robert D. Jarvis, Fairfield, commented that individuals could make comments online and in support of individuals following the immigration process in place.

Supervisor Hannigan clarified that the matter was not about immigration policy and that the proposed change to public charge was about medical care and public assistance. She commented in support of allowing individuals access to the medical care and noted that it was important to educate eligibility workers and to provide information to those already living in the community. Lastly, she commented on the need to submit comments, educate eligibility workers and provide community meetings to educate the public.

In response to questions from Supervisor Spering, Dr. Bela Matyas noted that impacted individuals would be those in the legal immigration process after the proposed change went into effect. He advised that people impacted by the chilling affect were those individuals that are current legal residents that are fearful of retroactive consequences. He noted that the department had been advertising about this matter already but noted that there was a fear of government. Ms. Ching noted that the confusion about public charge was wide and commented on the importance of educating clients. Dr. Matyas noted that Public Health and Health and Social Services were trying to reach individuals where they were through partners as well.

Dr. Matyas offered that there was an ironic harm to those targeted and a far greater harm to those not targeted that believed that they were impacted. Mr. Huber noted that the change to public charge was coming under the umbrella of immigration and should not be. He advised that the proposed change removes federal responsibility but requires counties to provide services. Lastly, he noted that legal residents were dropping off of medical services out of fear of this proposed change. Dr. Matyas noted that immigration had little impact on providing services as those in the immigration process were considered legal, and advised that the County was not permitted to provide most services to undocumented individuals.

Supervisor Spering commented on immigrant populations overwhelming counties in Southern California. He noted that he would be supporting this resolution because the proposed change impacted those going through the immigration process legally. He noted a need to be concerned about illegal immigrants overwhelming the system and the need to have civil discussions on matters like this.

Supervisor Thomson commented on undocumented children and adult medical coverage and the importance of putting money up front to prevent potential costs later.

On motion of Supervisor Brown, seconded by Supervisor Hannigan, the Board adopted Resolution No. 2018-225 declaring the Board's opposition to the proposed rule change to 'public charge' determinations and expressing the potential harm it would cause to Solano County and its residents. So ordered by 5-0 vote. (see Resolution Book)

On motion of Supervisor Hannigan, seconded by Supervisor Brown, the Board directed staff to: Draft public comment responses as to the impacts of the proposed changes to public charge; Conduct public outreach efforts to educate communities about what the rules were currently on public charge and what was being proposed; Educate eligibility workers so they could provide accurate information to clients about public charge; and Include the County's concerns in the comment responses about the impact of the proposed changes on individuals currently going through the legal immigration process.

In response to a question from Chair Vasquez, Ms. Ching noted that the proposed rule change was not supposed to affect individuals that had a green card unless they left the country.

In response to a request from County Administrator Birgitta Corsello, Ms. Bolden provided information on how the 2020 census would be conducted.

Chair Vasquez commented on past census activities.

Ms. Bolden noted that the prison population would be included in a group quarters count.

In response to a request from Supervisor Spering, Ms. Bolden noted that both citizens and non-citizens were always counted and noted that a robust campaign would take place to get the word out. She noted that the Census would be employing a diverse team that will speak many different languages to ensure that all communities are informed and counted.

In response to questions from Supervisor Thomson, Ms. Bolden noted that the homeless population would be counted in March 2020 and would canvas shelters, mobile food kitchens and vans and transitory locations. She advised that there would be a, targeted non-shelter outdoor count to count those in campgrounds or located outside. She noted that proper messaging would take place to ensure that residents count those in their residences that were there temporarily and that there would be a committee that looked at nomadic sheltering as well.

Ms. Corsello commented that she had already had this presentation made at the City Managers Group to encourage each of the cities to form a strategy team. She noted that several cities had already started working on this and noted that work was already being done to validate data into the state system.

California State Association of Counties (CSAC) Government Analyst Tracy Sullivan offered assistance by CSAC as a resource on the matter.

The Board directed staff to form a 2020 Census Complete Count Committee to assist with the public outreach for the upcoming 2020 Census and to encourage public participation in responding to the census, and to provide direction on the makeup and formation of the committee.

Director of Resource Management Bill Emlen introduced the item.

Associate Planner Eric Wilberg provided an overview of the Policy Plan Overlay.

Chair Vasquez opened the public hearing. There were no public speakers.

Chair Vasquez closed the public hearing.

In response to question from Supervisor Brown, Mr. Emlen advised that there was a provision for an extension if things did not progress by 2028 and noted that this process included moving the pet crematorium. Mr. Yankovich noted that the area was planned to be part of the Peabody Road Expansion Project. Mr. Emlen noted that most of the uses on the site were such that they met a provision that their buildings had to be easily dismantled and relocated because of the Travis Reserve and an intent to eventually increase the parking lot for the train station.

Mr. Emlen noted that the train station was very successful and that it did need to expand the parking lot.

Supervisor Spering thanked staff for addressing this issue and noted that the businesses were left with the impression that the city would assist during the process and when it didn't the county worked with these businesses to find a solution.

Supervisor Thomson commented in support of the item and noted that temporary uses and non-permanent buildings were a good fit.

Chair Vasquez commented on past discussion with the city and the need to have tighter agreements to ensure everyone lived up to what they were supposed to be doing.

On motion of Supervisor Thomson, seconded by Supervisor Spering, the Board approved reading the proposed ordinance amending Chapter 28 of the Solano County Code to rezone 83± acres located east of the intersection of North Gate Road and Canon Road by adding a Policy Plan Overlay District to such property (PP-17-01) by title only and waived further reading by a majority vote; Adopted Ordinance 2018-1801 amending Chapter 28 of the Solano County Code to rezone 83± acres located east of the intersection of North Gate Road and Canon Road by adding a Policy Plan Overlay District to such property (PP-17-01); and Adopted a Mitigated Negative Declaration of Environmental Impact as recommended by the Solano County Planning Commission.
