RE: Support for Rockville Trails Development

Dear Chairperson Cayler and Fellow Commissioners:

I am writing on behalf of the Green Valley Landowners Association (GVLA) to express our strong support for the work of Solano Land Trust (SLT) in preparation for the opening of Rockville Trails to public access. We have worked closely with SLT over several years on a variety of issues and they have reached out to GVLA to solicit inputs on issues and concerns that have arisen. We are supportive of the zoning change from Rural Residential to Ag-20 and the planned development of the property as a natural park.

GVLA and the Green Valley community are excited about the expected opening and we respectfully request that the Planning Commission endorse the changes and approvals necessary to make this a reality.

Best regards,

Roger G. Merrill
