EXHIBIT D-2

SOLANO COUNTY
PRIVACY AND SECURITY AGREEMENT (PSA)

The SmithWaters Group

This Exhibit to the *County of Solano Standard Contract* or *Memorandum of Understanding*, constitutes a *Contractor Privacy Security Agreement* (“**Agreement**”) between the County of Solano (“**County**”) and the contractor or vendor named.

The County has entered into Data Privacy and Security Agreements (the "**State Agreements**") with the California Department of Health Care Services ("**DHCS**") and California Department of Social Services ("**CDSS**") to ensure the security and privacy of Personally Identifiable Information ("**PII**" as further defined below) covered by the State Agreements. Pursuant to the State Agreements, the County is required to enter into written agreements with all contractors and vendors having access to PII ("**Contractor Privacy and Security Agreements**"). The Contractor Privacy and Security Agreements must impose upon contractors and vendors, at a minimum, the same restrictions and conditions that apply to the County with respect to PII. The State Agreements cover the County Department of Health and Social Services and its staff (County Workers), who access, use, or disclose PII covered by the State Agreements to assist in the administration of programs. "County Worker" is defined in the State Agreements to include County "contractors, subcontractors, vendors and agents." Contractor is therefore required to enter into and maintain compliance with this Agreement as an ongoing condition of the Standard Contract.

The County wishes to disclose certain information to Contractor pursuant to the terms of the Standard Contract and this Agreement, some of which may constitute PII as defined below. In carrying out the Standard Contract, Contractor will or may perform functions or activities in connection with one or more "programs" covered by the State Agreements. "Programs" covered by the State Agreements include, for example and without limitation: CalFresh; California Food Assistance Program (CFAP); California Work Opportunity and Responsibility to Kids Program (CalWORKs); Cash Assistance Program for Immigrants (CAPI); Entrant Cash Assistance (ECA); Refugee Cash Assistance (RCA); Foster Care (FC) (eligibility); Kinship Guardianship Assistance Program (Kin-GAP) (eligibility); Federal Guardianship Assistance Program (Fed-GAP) (eligibility); General Assistance/General Relief (GA/GR); Trafficking and Crime Victims Assistance Program (TCVAP); and California's Medicaid Program (Medi-Cal). County and Contractor agree as follows:

1. DEFINITIONS

For the purpose of this Agreement, the following terms mean:

- a. “**Assist in the Administration of the Program**” means performing administrative functions on behalf of programs, such as determining eligibility for, or enrollment in, and collecting PII for such purposes, to the extent such activities are authorized by law.
- b. “**Assist in the administration of the Medi-Cal program**” means performing administrative functions on behalf of Medi-Cal, such as establishing eligibility,

determining the amount of medical assistance, and collecting Medi-Cal PII for such purposes, to the extent such activities are authorized by law.

- c. **“Breach”** refers to actual loss, loss of control, compromise, unauthorized disclosure, unauthorized acquisition, unauthorized access, or any similar term referring to situations where persons other than authorized users and for other than authorized purposes have access or potential access to PII, whether electronic, paper, verbal, or recorded.
- d. **“Contractor Staff”** means those employees of Contractor, or any subcontractors, vendors and agents of Contractor performing any functions for the County or Contractor that require access to and/or use of PII and that are authorized by the Contractor or County to access and use PII.
- e. **“PII”** is personally identifiable information that is obtained through the Medi-Cal Eligibility Data System (**“MEDS”**) or Applicant Income and Eligibility Verification System (**“IEVS”**) on behalf of the programs which can be used alone, or in conjunction with any other reasonably available information, to identify a specific individual. The PII includes any information that can be used to search for or identify individuals, or can be used to access their files, including but not limited to, an individual's name, social security number (**“SSN”**), driver's license number, identification number, biometric records, date of birth (**“DOB”**), place of birth, or mother's maiden name. PII may also include any information that is linkable to an individual, such as medical, educational, financial, and employment information. The PII may be electronic, paper, verbal, or recorded, and includes statements made by, or attributed to, the individual. PII as defined in this Agreement includes Medi-Cal PII.
- f. **“Medi-Cal PII”** is information directly obtained in the course of performing an administrative function on behalf of the Medi-Cal that can be used alone, or in conjunction with any other information, to identify a specific individual. Medi-Cal PII includes any information that can be used to search for or identify individuals, or can be used to access their files, including, but not limited to name, SSN, DOB, place of birth, mother's maiden name, driver's license number, or identification number. Medi-Cal PII may also include any information that is linkable to an individual, such as medical, educational, financial, and employment information. Medi-Cal may be electronic, paper, verbal, or recorded and includes statements made by, or attributed to, the individual.
- g. **“Security Incident”** means the attempted or successful unauthorized access, use, disclosure, modification, or destruction of PII, or interference with system operations in an information system which processes PII that is under the control of the County or County's Statewide Automated Welfare System (**“SAWS”**) Consortium, or under the control of a contractor, subcontractor or vendor of the County, on behalf of the county.
- h. **“Secure Areas”** means any area where:
 - i. Contractor Staff assists in the administration of a program covered by a State Agreement;

 - 2) Any information provided to CDSS, including a source other than SSA, but in which CCDSS attests that SSA verified it, or couples the information with data from SSA to certify the accuracy of it (e.g. SSN and associated SSA verification indicator displayed together on a screen, file, or report, or DOB and associated SSA verification indicator displayed together on a screen, file or report).

2. PRIVACY AND CONFIDENTIALITY

- a. Contractor Staff may use or disclose PII only as permitted in this Agreement and only (1) to assist in the administration of programs in accordance with 45 CFR § 205.50 et.seq and Welfare and Institutions Code section 10850, (2) to assist in the administration of the Medi-Cal program in accordance with Section 14100.2 of the Welfare and Institutions Code, Section 431.33 et seq. of Title 42 Code of Federal Regulations, or (3) as authorized or required by law. Disclosures required by law or that are made with the explicit written authorization of the individual client who is the subject of the PII are allowable. Any other use or disclosure of PII requires the express approval in writing by the Solano County Health and Social Services Department. No Contractor Staff shall duplicate, disseminate or disclose PII except as allowed in this Agreement.
- b. Pursuant to this Agreement, Contractor Staff may only use PII to assist in administering their respective programs.
- c. Access to PII shall be restricted to Contractor Staff who need to perform their official duties to assist in the administration of their respective programs.
- d. Contractor Staff who access, disclose or use PII in a manner or for a purpose not authorized by this Agreement may be subject to civil and criminal sanctions contained in applicable federal and state statutes.

3. PERSONNEL CONTROLS

Contractor agrees to advise Contractor Staff, who have access to PII, of the confidentiality of the information, the safeguards required to protect the information, and the civil and criminal sanctions for non-compliance contained in applicable federal and state laws. For that purpose, the Contractor shall implement the following personnel controls:

- a. **Employee Training.** Train and use reasonable measures to ensure compliance with the requirements of this Agreement by Contractor Staff, including, but not limited to:
 - i. Provide initial privacy and security awareness training to each new Contractor Staff within thirty (30) days of employment;

security safeguards in this Agreement to all Contractor Staff. Three (3) or more security reminders per year are recommended;

- iii. Maintain records indicating each Contractor Staff's name and the date on which the privacy and security awareness training was completed; and
- iv. Retain training records for a period of three (3) years after completion of the training.

b. Employee Discipline.

- i. Provide documented sanction policies and procedures for Contractor Staff who fail to comply with privacy policies and procedures or any provisions of these requirements.
- ii. Sanction policies and procedures shall include termination of employment when appropriate.

c. Confidentiality Statement. Ensure that all Contractor Staff, accessing, using or disclosing PII, sign a confidentiality statement (provided by the County). The statement shall be signed by Contractor Staff prior to accessing PII and annually thereafter. Signatures may be physical or electronic. The signed statement shall be retained for a period of three (3) years.

The statement shall include at a minimum:

- i. General Use of the PII;
- ii. Security and Privacy Safeguards for the PII;
- iii. Unacceptable Use of the PII; and
- iv. Enforcement Policies.

d. Background Screening.

- i. Conduct a background screening of Contractor Staff before they may access PII.
- ii. The background screening should be commensurate with the risk and magnitude of harm the employee could cause. More thorough screening shall be done for those employees who are authorized to bypass significant technical and operational security controls. County requires LiveScan screening for all contractor staff who have access to PII.
- iii. The Contractor shall retain each Contractor Staff's background screening documentation for a period of three (3) years following conclusion of employment relationship.

4. MANAGEMENT OVERSIGHT AND MONITORING

To ensure compliance with the privacy and security safeguards in this Agreement the Contractor shall perform the following:

- a. Conduct periodic privacy and security reviews of work activity by Contractor Staff, including random sampling of work product. Examples include, but are not limited to, access to case files or other activities related to the handling of PII.
- b. The periodic privacy and security reviews must be performed or overseen by management level personnel who are knowledgeable and experienced in the areas of privacy and information security in the administration of their program, and the use or

disclosure of PII.

The Contractor shall ensure PII is used and stored in an area that is physically safe from access by unauthorized persons at all times. The Contractor agrees to safeguard PII from loss, theft, or inadvertent disclosure and, therefore, agrees to:

- a. Secure all areas of the Contractor's facilities where Contractor Staff assist in the administration of their program and use, disclose, or store PII.
- b. These areas shall be restricted to only allow access to authorized individuals by using one or more of the following:
 - i. Properly coded key cards
 - ii. Authorized door keys
 - iii. Official identification
- c. Issue identification badges to Contractor Staff.
- d. Require Contractor Staff to wear these badges where PII is used, disclosed, or stored.
- e. Ensure each physical location, where PII is used, disclosed, or stored, has procedures and controls that ensure an individual who is terminated from access to the facility is promptly escorted from the facility by an authorized employee and access is revoked.
- f. Ensure there are security guards or a monitored alarm system at all times at the Contractor facilities and leased facilities where 500 or more individually identifiable records of Medi-Cal PII is used, disclosed, or stored. Video surveillance systems are recommended.
- g. Ensure data centers with servers, data storage devices, and/or critical network infrastructure involved in the use, storage, and/or processing of PII have perimeter security and physical access controls that limit access to only authorized Contractor Staff. Visitors to the data center area must be escorted at all times by authorized Contractor Staff. Video surveillance systems are recommended.
- h. Store paper records with PII in locked spaces, such as locked file cabinets, locked file rooms, locked desks, or locked offices in facilities which have multi-use functions meaning that there are Contractor and non-Contractor functions in one building in work

areas that are not securely segregated from each other. It is recommended that all PII be locked up when unattended at any time, not just within multi-use facilities.

- i. The Contractor shall have policies that indicate Contractor Staff are not to leave records with PII unattended at any time in airplanes, buses, trains, etc., including baggage areas. This should be included in training due to the nature of the risk.
- j. Use all reasonable measures to prevent non-authorized personnel and visitors from having access to, control of, or viewing PII.

7. **TECHNICAL SECURITY CONTROLS**

- a. **Workstation/Laptop Encryption.** All workstations and laptops, which use, store and/or process PII, must be encrypted using a FIPS 140-2 certified algorithm 128 bit or higher, such as Advanced Encryption Standard (AES). The encryption solution must be full disk. It is encouraged, when available and when feasible, that the encryption be 256 bit.
- b. **Server Security.** Servers containing unencrypted PII must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review. It is recommended to follow the guidelines documented in the latest revision of the National Institute of Standards and Technology (NIST) Special Publication (SP) 800-53, Security and Privacy Controls for Federal Information Systems and Organizations.

 - ii. There must be a documented patch management process that determines installation timeframe based on risk assessment and vendor recommendations.
 - iii. At a maximum, all applicable patches deemed as critical must be installed within thirty (30) days of vendor release. It is recommended that critical patches which are high risk be installed within seven (7) days.
 - iv. Applications and systems that cannot be patched within this time frame, due to significant operational reasons, must have compensatory controls implemented to minimize risk.

- g. **User IDs and Password Controls.**
 - i. All users must be issued a unique username for accessing PII.
 - ii. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee within twenty-four (24) hours. Note: Twenty-four (24) hours is defined as one (1) working day.

 - ii. The audit trail shall:
 - A. Be date and time stamped;
 - B. Log both successful and failed accesses;
 - C. Be read-access only; and
 - D. Be restricted to authorized users.
 - iii. If PII is stored in a database, database logging functionality shall be enabled.
 - iv. Audit trail data shall be archived for at least three (3) years from the occurrence.
- m. **Access Controls.** The system providing access to PII shall use role-based access controls for all user authentications, enforcing the principle of least privilege.

- n. **Transmission Encryption.**
 - i. All data transmissions of PII outside of a secure internal network must be encrypted using a Federal Information Processing Standard (FIPS) 140-2 certified algorithm that is 128 bit or higher, such as Advanced Encryption Standard (AES) or Transport Layer Security (TLS). It is encouraged, when available and when feasible, that 256 bit encryption be used.
 - ii. Encryption can be end to end at the network level, or the data files containing PII can be encrypted.
 - iii. This requirement pertains to any type of PII in motion such as website access, file transfer, and email.
- o. **Intrusion Prevention.** All systems involved in accessing, storing, transporting, and protecting PII, which are accessible through the Internet, must be protected by an intrusion detection and prevention solution.

8. AUDIT CONTROLS

- a. **System Security Review.**
 - i. The Contractor must ensure audit control mechanisms are in place.
 - ii. All systems processing and/or storing PII must have at least an annual system risk assessment/security review that ensures administrative, physical, and technical controls are functioning effectively and provide an adequate level of protection.
 - iii. Reviews should include vulnerability scanning tools.
- b. **Log Reviews.** All systems processing and/or storing PII must have a process or automated procedure in place to review system logs for unauthorized access.
