Chair Hannigan and Members of the Board,

The Board of Directors of the Solano County Farm Bureau voted last evening unanimously in support of a 45-day moratorium on the growing of hemp in Solano County.

With just five active permits to date in the county, our members and residents living in unincorporated Solano County have already experienced significant impacts - especially related to public safety, preventing residents from the peaceful enjoyment of their land, and the ability to conduct every day business.

We encourage you to heed the calls of residents and public safety professionals to adopt this moratorium without delay, and to send this experiment in commercial hemp back to staff and open community hearings for more careful review.

We appreciate your continued support of agriculture in our County, and appreciate your careful consideration of our request.

Sincerely,

John Pierson  
President
