Orchard and Licensee shall sometimes be referred to individually as a "Party" and collectively as the "Parties." This Agreement has an "Effective Date" of November 1, 2025 until June 30, 2028.

In the event of any conflict between the terms of this Agreement and any other document executed by the Parties (including but not limited to, a statement of work, project plan, quote, or proposal), the Parties shall follow this order of precedence: (1) the terms of the Business Associate Agreement executed between the Parties and attached hereto in Exhibit D, (2) the terms of this Agreement unless otherwise explicitly stated in the other document(s), (3) the terms of a statement of work, (4) the terms of a project plan, (5) the terms of a scope statement, (6) the terms of a scope implementation statement of work, and (7) the terms of a quote or proposal. No terms or conditions proposed by one Party in an order form, supplement, or URL shall apply unless agreed upon in writing signed by both Parties.

1. **Ordering Documents.** Orchard agrees to provide to Licensee the software (the "Licensed Software"), the interfaces (the "Interfaces"), the professional services (the "Services"), the equipment and hardware (the "Hardware"), and the related documentation in the form of training outlines, technical help manuals or specifications included with or within the ordered Products (the "Documentation"), that are described in a Statement of Work (each an "SOW"). The Licensed Software, Interfaces, Services, Hardware and Documentation may be collectively referred to as "Products." Products shall be provided in accordance with the provisions of this Agreement and the applicable SOW. Orchard's offer of pricing in any quote or proposal shall be effective for a period of thirty (30) days from Licensee's receipt of such quote or proposal unless a different period is specified therein.

### 2. Term and Termination

- A. **Term.** This Agreement shall commence on the Effective Date and shall continue until terminated pursuant to this Section 2. The term for any SOW shall be specified in the SOW; provided, however, that any SOW may be terminated pursuant to this Section 2. Any authorized renewal terms for any SOW must be in writing and signed by the Parties.
- B. **Termination on Mutual Agreement.** This Agreement or any SOW may be terminated by mutual agreement of the Parties, effective at the time designated by the Parties in writing.
- C. **Termination for Cause.** Either Party shall have the right to terminate this Agreement in its entirety, or any SOW, in the event of a material breach of the terms of this Agreement or an SOW by the other Party, which breach is not cured within sixty (60) calendar days following receipt of written notice specifying the breach.
- D. **Termination for other reasons, including Without Cause.** See Exhibit C General Terms and Conditions Section 4.

- F. Termination of any SOW shall have no effect on the Agreement or any other executed SOW between the Parties. Termination of this Agreement shall not terminate the perpetual license of the Licensed Software granted under any SOW; *provided, however*, that Licensee will no longer receive updates, upgrades, or new versions of the Licensed Software or any Services for the Licensed Software.

All invoices will provide details as to charges and will include documentation, if applicable. If an invoice is disputed in good faith, the Parties shall resolve such dispute in accordance with Section 15..

Licensee is solely responsible for the accuracy and sufficiency of the Licensee Data and acknowledges that Orchard has no responsibility or intent to review or monitor any Licensee Data.

8. **Indemnification.** Orchard shall defend, indemnify and hold harmless, Licensee and its directors, officers, employees and agents (each, a "Licensee Indemnified Party"), from and against claims, liabilities, obligations, judgments, causes of action, costs and expenses (including reasonable attorneys' fees) (collectively, "Losses") that a Licensee Indemnified Party incurs or becomes liable for arising from: (i) actual or alleged infringement of any patent, trademark, copyright or other intellectual property right (including, but not limited to, misappropriation of trade secrets) based on any code, interface, software, program, solution and/or other materials or Product furnished to Licensee by Orchard and used by Licensee as authorized herein ("IP Claims"); or (ii) any breaches by Orchard of its confidentiality obligations hereunder or under a Business Associate Agreement. If

The indemnified Party may participate in the defense of any claim at its own expense, using counsel of its own choice, subject to the indemnifying Party's right to control the defense and settlement. In no event shall an indemnified Party settle any claim without the indemnifying Party's prior written approval.

9. **Limitation of Liability.** In no event shall Orchard or its licensors, PROVIDERS or CONTRACTORS be liable for any indirect, special, incidental, consequential or punitive damages, losses or expenses of any kind, including but not limited to, loss of data OR COST OF RECREATING LOST DATA, interruption of service, loss of use, loss of business, lost profits or lost revenue, in connection with this Agreement, regardless of the form of action WHETHER ARISING IN CONTRACT OR TORT, AND even if informed of the possibility of such damages. ### **Attachment C: Orchard Software Cloud Services Service Level Agreement (SLA)**

This Exhibit sets forth Orchard's service level commitment for the availability of Cloud Services and related services and functionality ("Availability SLA").

#### **1. Definitions**

a. "Application Environment" means the underlying layers of infrastructure and hardware assembled to support the presentation of the Licensed Software in the cloud environment. This encompasses hardware and systems software, and other systems, that support the Cloud Services delivery.

b. "Availability" means the time period that the Cloud Services or component thereof is available to Licensee to utilize for business purposes. Availability is calculated as follows (and will be rounded to up to the next one hundredth of a percentage point):

$$[ (\text{Base Time} - \text{Unscheduled Downtime}) / (\text{Base Time}) ] \times 100$$

c. "Base Time" equals the product of the number of days in the applicable month times 24 hours times 60 minutes, subtracting Maintenance Downtime.

d. "Cloud Services" means Orchard's hosting of the Licensed Software in a cloud environment for delivery to Licensee. Cloud Services includes: (i) managing and maintaining the Application Environment; (ii) providing User Application Access; (iii) managing and maintaining the Host Interface; and (iv) providing Device Connectivity.

e. "Device Connectivity" means services and software within the Orchard cloud environment that connects the Cloud Services with on-premise devices such as vendor instruments, label printers and report printers.

f. "Host Interface" means the services and software within the Orchard cloud environment and under the Licensed Software's full control that uphold the host interface connectivity in the applicable systems.

g. "Maintenance Downtime" means the aggregate total of all minutes of maintenance performed during the month to perform any necessary hardware, operating system, network, database, application software maintenance, repair, upgrades, and updates. Maintenance Downtime includes but is not limited to downtime arising from agreed support operations, Host Interface additions and modifications, and device additions and modifications.

h. "Service Packages" means minor updates to the Licensed Software, updates to connected products on Licensee's site such as instruments, printers, or systems that have been identified as root cause for reported support issues, or updates to supported software or services that pose potential risk to Orchard or Client data security.

i. "Unscheduled Downtime" means the time (in minutes) during which the Cloud Services (or component thereof) are not operational (excluding Maintenance Downtime) from Orchard's or its hosting provider's facility internet connection based on the measuring methodology documented herein.

j. "User Application Access" means access to the Licensed Software as a service and access to the Licensee data within the Licensed Software. Services that contribute to User Application Access are the combination of all individual servers running the Licensed Software

being used and all database services required to connect the application to data structures.

2. Service Level Commitments and Credits

a. Orchard will calculate and report on the following Cloud Service component health indicators monthly, and will use reasonable efforts to meet each component's Target Availability noted below:

<u>Cloud Services Component</u>	<u>Target Availability</u>
Application Environment	99.99%
User Application Access	99.95%
Host Interface	99.9%
Device Connectivity	99.9%

If the same component Target Availability above is not met for two calendar months in a row, or any three calendar months in a calendar year, then Licensee will have the right to terminate the applicable Cloud Services upon thirty (30) days written notice to Orchard.

b. Service Credits

If monthly overall Cloud Services Availability falls below the percentages in the table below, upon Licensee's request, Orchard will provide the corresponding credit listed below, to be applied against the monthly Cloud Services fee in Licensee's next invoice to account for the downtime. The appropriate credit percentage (%) is determined based on the following table and subject to the exceptions below and root cause analysis of events. Licensee acknowledges that this Section provides Licensee's sole and exclusive remedy for Orchard's failure to meet the System Availability commitment.

<u>Availability %</u>	<u>Credit %</u>
>= 99.0% and < 99.99%	5%
97.0 to 98.99%	10%
95.0 to 96.99%	15%
< 94.99 or below	50%

3. General Exceptions. Licensee shall not receive any credits under this SLA in connection with any failure or deficiency of Cloud Services Availability caused by or associated with:

- Force majeure events per Section 21 of the Agreement;
- Failure of access circuits to the Orchard network, unless such failure is caused solely by Orchard;
- Scheduled maintenance, scheduled backups, scheduled restores and emergency maintenance and upgrades;
- Licensee's acts or omissions (or acts or omissions of others engaged or authorized by Licensee), including, without limitation, custom scripting or coding (e.g., CGI, Perl, Java, HTML, ASP, etc.), and any negligence, willful misconduct, or misuse of the Cloud Services;

- Failures due to third parties, including but not limited to HL7 Interface updates planned or unplanned by Licensee and its HL7 vendors;
  - Outages elsewhere on the Internet that hinder access to Licensee's account. Orchard is not responsible for browser or DNS caching that may make the Licensed Software appear inaccessible when others can still access it. Orchard will guarantee only those areas considered under the control of Licensed Software;
  - Use of a VPN or similar connection which is not exclusively within Orchard's control at both ends of such connection, and where the problem occurs in the part of the VPN which is not under Orchard's control.
4. Maintenance Downtime. Orchard will use commercially reasonable efforts to perform Maintenance Downtime after regular business hours and to coordinate the timing of Maintenance Downtime with Licensee. Orchard reserves the right to establish a monthly maintenance window for the purpose of upgrading, patching, modifying, and repairing portions of the Cloud Services environment. The standard monthly window is every third Sunday of the month between 3AM EST and 7AM EST. The alternate window for after-hours production facilities is the third Thursday of the month between 7PM EST and 11PM EST. In some cases, such as to address urgent security issues, prior notice of Maintenance Downtime is not possible. The amount of Maintenance Downtime may vary from month to month depending on the level of change to the system such as the project implementation phase, adding new products, upgrading products, etc. Licensee will cooperate and reasonably assist Orchard as needed in connection with Orchard's maintenance activity.
5. Service Packages. Orchard will inform Licensee when new Service Packages are ready to be implemented. Orchard will provide information regarding the improvements, updates, and error corrections included with each Service Package. Licensee and Orchard will work together to establish a mutually agreeable implementation schedule for the Service Packages; provided that Orchard has the right to implement Service Packages that address errors and/or security issues as soon as practicable. Orchard will perform the technical requirements needed for Licensee to use the Service Packages, at no additional charge and as part of the Cloud Services fees.
6. Scope of Use. Licensee acknowledges and agrees that Orchard may from time-to-time measure Licensee's compliance with its Licensed Software scope of use, as defined in the Statement of Work (SOW), using Orchard's system tools. Licensee further agrees that Licensee will notify Orchard promptly upon the occurrence of any action, condition, activity or change that will affect Licensee's scope of use, so that Licensee's scope of use can be reviewed. Based on the review, the pricing will be subject to change if Licensee's scope of use has changed.
7. System Stabilization Period. The System will be considered in a "System Stabilization Period" during the seventy-two (72) hour window following the first productive use and following a major system change. During a System Stabilization Period, changes to the System may be required to achieve optimal performance and the Availability SLA will not apply.
8. Infrastructure. Orchard will provide all infrastructure and system software required to deliver the Cloud Services. Orchard may utilize subservice providers, as outlined in Orchard's SOCII Type 2 reporting, at its discretion to assist in maintaining such items. Client remains solely responsible for maintaining Client's on-premise systems that house laboratory equipment and connections to the cloud environment.
9. Disaster recovery.

Orchard has adopted and will maintain commercially reasonable disaster recovery plans for the Cloud Services. Orchard places servers and other systems in the primary North American datacenters of AWS and utilizes multiple availability groups to support this SLA. Orchard will also provide disaster recovery plans for all critical products and services used by Orchard.

Disaster recovery scenarios are initiated when a system that supports the Cloud Services is deemed disabled without the possibility of repair by Orchard support operations. Disaster recovery initiation begins the restoration of the system from a previous backup in a new state environment and will generally be utilized as a last step in troubleshooting with Licensee.

Orchard will use its best commercial efforts to meet the following Recovery Time Objectives (“RTOs”) and Recovery Point Objectives (“RPOs”), subject to the exceptions in Section 3 above and availability of AWS (or other provider) service platforms. A full regional failure of AWS (or other provider) service platforms will generally not be recoverable:

Component	RTO and RPO Target
Application Environment	RTO: 6 hours
User Application Access	RTO: 6 hours RPO: 15 minutes
Host Interface	RTO: 24 hours
Device Connectivity	RTO: 24 hours

## Attachment E: Orchard Software Project Implementation

Orchard personnel will perform the installation of the LIS application using standard operating procedures and working documents following Orchard's implementation methodology and prescriptive approach. Orchard will assign a project manager to identify key tasks and milestones for the implementation. The Orchard project manager is the key point of contact throughout the system implementation. Orchard and the client both agree to professionally manage the project implementation. A successful implementation requires a technical installation that is integrated within your environment, aligned to your business requirements, includes training of your staff, and creation of a support environment to manage the application health, continuous optimization, and ongoing staff training.

### Implementation Methodology

Orchard employs a five-phase project process to manage the overall timeline and to drive resources across the enterprise. The go-live with the new system should be a non-event because the system has been tested, validated, and accepted before it is used to process patient samples. The five phases for implementation projects are: Planning, Installation, Configuration, Validation, and Production. Each phase ends when a project Milestone is reached:

**Planning Complete** is achieved when the full project team is assembled, and the project scope, timeline and resources are finalized and reviewed collectively during a formal kickoff call.

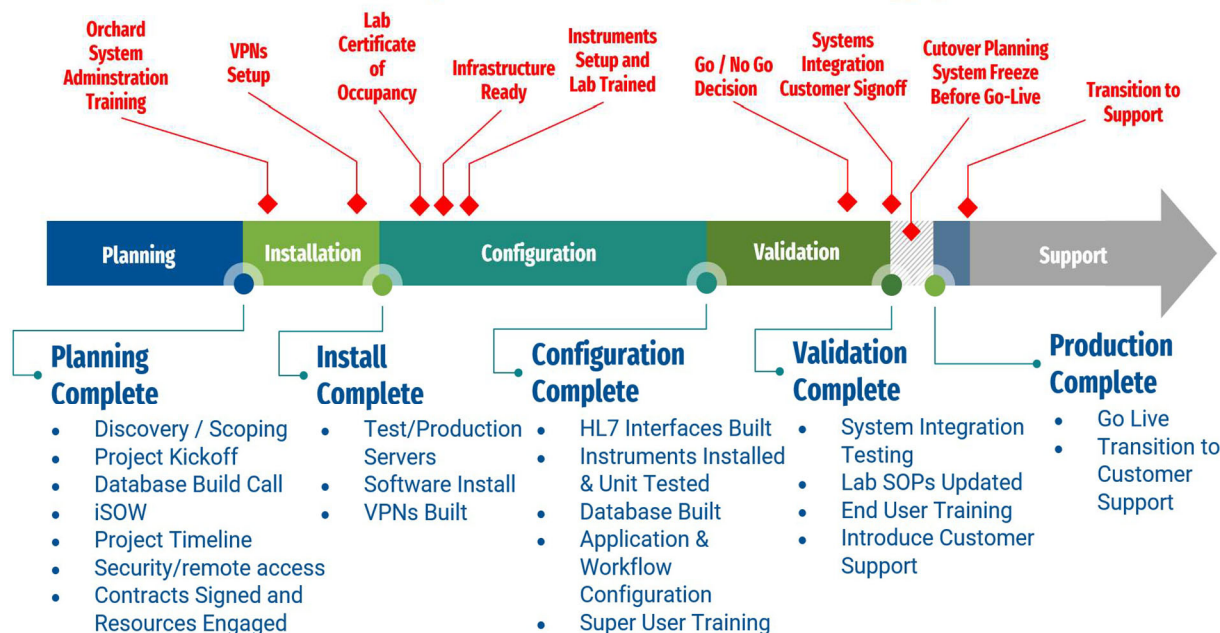

**Installation Complete** is when the client infrastructure is prepared, VPNs are established, and the Orchard application servers are loaded with software.

**Configuration Complete** is reached when the system is configured to support future state workflow. Instrument and application interface unit testing is also complete.

**Validation Complete** is the culmination of client documentation and completion of end-to-end system validation. End users are trained, and a cutover plan is ready to facilitate a successful activation.

**Production Complete** milestone is when the lab is operational using Orchard LIS.

## Orchard Project Methodology

## Diagram 1.0: Orchard Software Implementation Phases

### Project Initiation

Laboratories desire to be nimble and engage with changes in market demand and medicine. This requires having the flexibility to implement new technologies quickly and efficiently. Time to value has never been more important than it is today. Orchard Software recognizes this need and is prepared to staff and start projects swiftly.

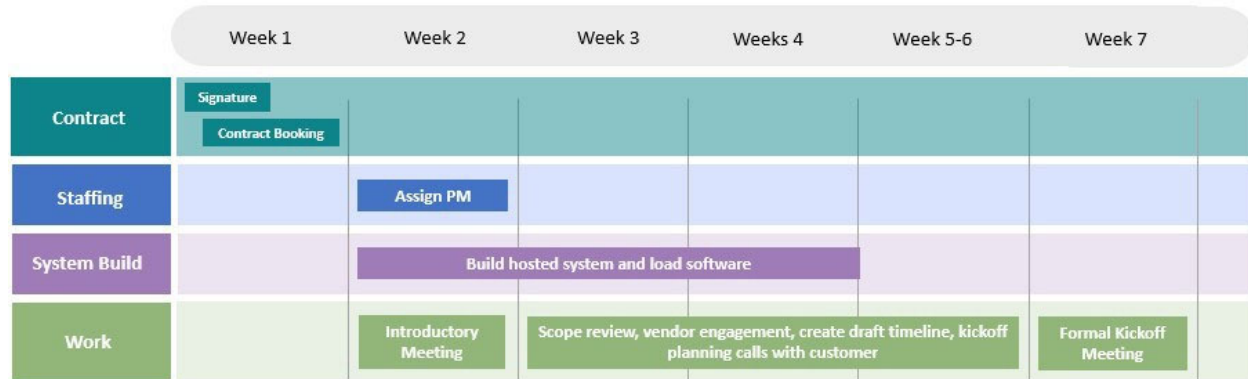

Diagram 2.0: Orchard Project Initiation

Our business is organized to assign staff and begin working with our clients within 1-2 weeks of contract signature and booking. Secondly, Orchard leverages automation and templates to rapidly deploy standardized systems in the cloud.

### Project Deliverables

The following deliverables will be provided by the Orchard Software Project Manager during the implementation:

- Project Kickoff materials.
- Project work-plan and deployment methodology.
- Implementation Scope of Work (iSOW).
- Weekly status meeting agendas and minutes.
- Change control forms.

The following deliverables will be completed by the County during the implementation:

- Signed Implementation Scope of Work (iSOW) document.
- End-to-end system validation documented via the Validation Complete signoff form.
- Completion of three County feedback events.

**EXHIBIT C**  
**GENERAL TERMS AND CONDITIONS**

**1. CLOSING OUT**

A. County will pay Contractor's final request for payment providing Contractor has met all obligations required under this Contract or any other contract and/or obligation that Contractor may have with the County. If Contractor has failed to meet any outstanding obligation, County will withhold compensation due under this Contract from Contractor's final request for payment until Contractor satisfies such obligation(s). Contractor is responsible for County's receipt of a final request for payment 30 days after expiration or earlier termination of this Contract.

B. A final undisputed invoice shall be submitted for payment no later than 90 calendar days following the expiration or termination of this Contract, unless a later or alternate deadline is agreed to in writing by the County. The final invoice must be clearly marked "FINAL INVOICE", thus indicating that, upon full payment of such invoice, no further payments are due or outstanding under the Contract.

C. The County may, at its discretion, choose not to honor any delinquent final invoice if the Contractor fails to obtain prior written approval of an alternate final invoice submission deadline. Written County approval for an alternate final invoice submission deadline shall be sought from the County prior to the expiration or termination of this Contract.

**2. TIME**

Time is of the essence in all terms and conditions of this Contract.

A. This Contract may be terminated by County or Contractor, at any time, with or without cause, upon 30 days' written notice from one to the other.

B. County may terminate this Contract immediately upon notice of Contractor's malfeasance.

C. Following termination, County will reimburse Contractor for all expenditures made in good faith that are unpaid at the time of termination not to exceed the maximum amount payable under this Contract unless Contractor is in default of this Contract.

Contractor represents that Contractor will perform the work according to generally accepted professional practices and standards and the requirements of applicable federal, state and local laws. County's acceptance of Contractor's work shall not constitute a waiver or release of Contractor from professional responsibility.

B. Contractor further represents that Contractor possesses current valid appropriate licensure, including, but not limited to, driver's license, professional license, certificate of tax-exempt status, or permits, required to perform the work under this Contract.

The insurance afforded to the additional insureds shall be at least as broad as that afforded to the first named insured.

(b) For any claims related to work performed under this Contract, Contractor's insurance coverage must be primary insurance with respect to the County of Solano, its officers, officials, agents, employees, and volunteers. County of Solano

(3) County must receive and approve all certificates and endorsements before work commences.

(4) However, failure to provide the required certificates and endorsements shall not operate as a waiver of these insurance requirements.

C. If County serves Contractor with a notice of default and Contractor fails to cure the default, Contractor waives any further notice of termination of this Contract.
