Hi Don,

Per the Housing Task Force (Karen) in the State Operations Center (SOC), shower trailers are not an acceptable use of Project Roomkey funds. The Housing Task Force will let me know if they can find an alternate funding source for that.

Thank You,

Jennifer Gordon

Good Evening,

Unfortunately shower trailers would not be an allowable cost under Project Roomkey. However, we will follow-up on any other potential funding sources and let you know.

Thank you,
Karen Jones, Hazard Mitigation Grants Specialist

Hi Laura,

Could you, or someone within the Homeless Subcommittee, reach out to MRCC on this?

Thanks,

Kara

Housing and Social Services Task Force Coordinator, Homelessness Work Group, or Project Roomkey Lead,

Would you be able to answer this question from Solano County?

Good Morning,

Please pass this to the Project Roomkey group:

Solano County has a question for the task force responsible for Project Roomkey. A Solano County Board Member is trying to use the county accepted Project Roomkey funds to purchase 4 portable shower trailers to be deployed in cities near homeless encampments, not in association with non-congregate sheltering operations. It would take at least 2 months to get the shower trailers in the county. Is this an appropriate use of Project Roomkey funds?

Thank You,

Jennifer Gordon
