RE: Receive a presentation from the Library Department on the Solano County Library's Strategic Directions' Plan

Cara Swartz, Assistant Director of the Solano County Library, presented the Board with an overview of the Solano County Library Strategic Plan noting that in 2011, the Library undertook the development of a new strategic plan. Ms. Swartz noted that building on discussions with the community and Library staff, the Library Administration and a planning committee developed a series of strategic directions that set service priorities for the coming years. Ms. Swartz reviewed the strategic directions for the Solano County Library which were: 1) Build partnerships to make a difference in people's lives; 2) Inspire and educate by sharing our passions; 3) Lead through change and learning; and 4) Celebrate our diverse and distinctive environment.

Ms. Swartz noted that the next steps would be to develop detailed work plans to document the activities of all the units within the department and match them to the strategic directions described in the Plan. It was noted that this Strategic Plan would be the basis for ongoing reports that would evaluate the progress that they were making in serving the needs of the residents of the County.
