I. SERVICE LOCATION

Street Address: 2930 Ramona Avenue, Suite 100
City & Zip Code: Sacramento 95826

All site address changes must be reported to County 90 days prior to the change.

II. CONTRACT DESCRIPTION

Contractor will provide CalWIN client correspondence printing and mailing services for the Solano County Department of Health and Social Services, Employment and Eligibility Services Division, as well as miscellaneous jobs as requested by the County.

There are various types of periodic client correspondence that will be printed and mailed out to clients, under this Contract. Contractor is to use the most economic and efficient process to print and mail correspondence.

A daily batch cycle process is normally run five nights a week, Monday – Friday, and a merged output file for each county is produced the following day. Current CalWIN vendor transmits the data electronically by 6:00 am to the Contractor by secure Shell File Transfer Protocol (SFTP). An additional batch process may occasionally be run on a weekend to process special jobs. These special jobs are also sent by SFTP. In addition to the daily process jobs, a monthly job is run approximately the third week of the month to produce periodic reports and sent by secure SFTP.

III. WORK ACTIVITIES

- A. File types received as source files for the duration of this Contract include, but are not limited to PDF. If a file format is requested outside those mentioned prior, County will work with Contractor to determine a mutually appropriate implementation timeline.
- B. The files Contractor receives are typically pre-formatted. County understands that Contractor needs to modify each piece to insert objects on the document to automate the mailing process. For example, adding barcodes for tracking, key line information for internal quality control.
- C. Documents may be submitted to Contractor as either simplex (printing on one side) or duplex (printing on both sides). Duplex is defined as laser printing (imaging) done to both sides of a sheet. Duplex printing implies two images per sheet passing through the printer, even if toner is only applied to one side of the sheet. Duplex and simplex printing cannot be mixed. Simplex is defined as laser printing (imaging) done on the front side of a sheet. Simplex and duplex printing cannot be mixed.
- D. Contractor will utilize materials that are most efficient for mail automation and postage discounts based on job type. Contractor will create a daily summary file of printed correspondence. The file will contain information as selected by the County from the metadata in the batch print file. The file will be in a mutually agreed upon file format and be sent to the County via SFTP or placed on Contractor's secure SFTP site for pickup by the County.

- E. Contractor or County may update transmission methods with updates in technology during the contract period. These changes must be communicated with the Contractor or County as quickly as possible, preferably prior to, but no later than 10 business days after changes occur.
- F. Inserts
- a. **Offline Inserts** will be defined as correspondence previously printed and folded with the intention of being placed in an envelope as the completed product is being inserted.
 - b. **Offline Pre-Printed Inserts** will be defined where Contractor performs the printing of the insert prior, and separately inserts the document into the completed product.
 - c. **Inline Inserts** will be defined as correspondence that is printed in-line with, and as a part of, the CalWIN documents.
 - d. **Inserting by Hand (Manual Inserting)** - Manual inserting is triggered when print files are 50 pieces or lower or subdivisions (e.g., envelope size, homeless mail, etc.) within a print file are 50 pieces or lower. Manual inserting may also be triggered if materials and/or job specifications do not allow for mail pieces to be inserted with high speed inserting equipment; in such cases, Contractor will notify County of all such instances. Manual inserting volumes are calculated for any portion of a job that cannot be inserted with high speed inserting equipment. The manual portion is separated from the automated portion in order to maintain automation for as much mail as possible. Barcode reading equipment is used when possible in the manual inserting department to maintain sheet and mail piece tracking. For materials printed by Contractor, this is charged at the per image pricing for printing, plus the "insert by hand" fee per sheet as referenced in Exhibit B-1. For materials supplied by County, this is charged at the "insert by hand" fee per sheet as referenced in Exhibit B-1.
 - e. **Minimum Requirement for Inserts** - Most correspondence will be printed on 8.5" X 11" plain white 20# paper stock. The text may be of varying length, printed on both sides of the paper, and possibly ten or more pages. Page size can be no smaller than 8.5" X 11" and no larger than 8.5" by 14". A standard piece (two pages, mailing and return envelopes), without additional inserts, should weigh only slightly more than 1/2-ounce. Documents of varying sizes may need to be inserted into the same envelope. Paper should be close to 20# stock, OCR readable with recycled content. "Printed on recycled paper" will be printed on all recycled-content paper and envelopes. Mailing envelopes should include pre-printed return address, postal indicia and glassine address windows. County specified TDD/TTY phone number will be visible on the front side of the outgoing envelope whether it is printed on the envelope itself or shows through the glassine address window.

There are also once monthly print jobs that create renewal packets for several Social Services programs. These packets may contain between 24 and 36 images each. These are usually mailed in a 9"x12" envelope with a 6.5"x 9.5" return envelope.

- G. Service Levels - Jobs are to be broken into three (3) Service Level Categories
- a. **Daily** – Files of this type must be received for mailing services by Contractor no later than 6 AM Pacific Time for same day mailing.
 - b. **Monthly or Periodic** – The County may, from time to time, submit print files for processing but expect Contractor to refrain from mailing until a date in the future.
 - c. **Special** – These jobs are for any type of mailing not defined above. The requests for this type of job will be made in writing from the County to Contractor. Contractor will attach the request as source documentation when invoicing.
 - d. County understands that mailing does not occur when the United States Post Office is closed, nor is mailing performed on any Federal holidays.

H. Quality control measures

Quality Control must be inherent in the process. Duplicated, missing and misprinted documents and inserts and other errors must be identified and remedied before mailing. Mail must be in the hands of the USPS that night for next day mailing. Any errors or variation must be reported to the County immediately. A report including the date and time items were mailed, the unique batch identifier, the number of documents printed, items mailed, inserts included, and postage used will be sent to each county daily at the completion of the process.

I. Automated Processes and Tracking

Contractor must be USPS CASS certified to ensure address cleansing and correction capability, and comply with the Intelligent Mail Barcode requirements. Letters will be bar-coded and sorted for the best carrier route and delivery point available to maximize postage rate discounts.

J. Miscellaneous

There will be circumstances in which special print, mailing, and document processing jobs will be needed by County that are not defined in this scope of services. These requests will be made in writing by the County to the Contractor. The Contractor will include these written requests when invoicing for the services, based on agreed upon costs, included in Exhibit B-1

K. Meeting Industry Standards

Contractor will meet related industry standards when providing services outlined in this scope of services in the following areas, but not limited to, receiving data and processing for USPS, mail piece specifications, letter size and weight of standard letter with envelopes, and reading and processing of the current CalWIN vendor original source files.

IV. REPORTING REQUIREMENTS

- A. Contractor will provide a Mailing Report, included as Exhibit B-2 of this Contract as back-up information to support the billing in the ECF.
- B. Contractor will retain source files and output data for 90 days from file submission from the current CalWIN vendor.

V. CONTRACT MONITORING

Contractor will:

- A. Participate in the County's evaluation of the Contractor's performance under this Contract on a periodic basis. Such evaluation will include assessing Contractor's compliance with all contract terms and performance standards. The contract monitoring findings and recommendations will be reflected in a report by the County submitted to Contractor no later than 60 days after the monitoring is completed.
- B. Provide a corrective action plan in response to the contract monitoring report to address County contract monitoring findings no later than 30 days after the County report in section III A. is issued. If improvement does not occur consistent with the corrective action measures, the County may terminate this Contract or impose other penalties as specified in the Contract. The decision of the County regarding termination or penalties will be final.

EXHIBIT B
BUDGET DETAIL AND PAYMENT PROVISIONS

I. COMPENSATION

- A. The maximum amount of compensation under the Contract will not exceed the amount listed on Section 3 of the Standard Contract.
- B. Contractor will be paid for mailing services according to the schedule included as Exhibit B-1 of this Contract.
- C. County will provide funds to Contractor in the amount of \$40,000 (which is in addition to the original \$20,000 deposit for a total of \$60,000, the approximate equivalent of four months' postage usage) upon execution of this Contract to maintain a Postage Deposit Account. Contractor will maintain a running balance of postage used and postage reimbursed and provide reporting with each invoice to County. If at any time during the month, the balance of the Postage Deposit Account drops below \$5,000, Contractor will advise County and supply County with an invoice for postage expended to date for that month as well as the appropriate back up documentation. County will expedite the processing of the postage invoice. If this should occur two months in a row, County will amend this Contract to increase the amount of the Postage Deposit Account by amount agreed upon by County and Contractor. Contractor will be under no obligations to perform mailing services without a positive postage balance at the time of mailing. Upon completion of this Contract, to include any amendments or extensions, Contractor will make County whole by returning any unused funds in the Postage Deposit Account and not billing for postage for the final month of the Contract.

Contractor will charge the correct postage amount and also apply the date of mailing to each mail piece based on the weight and agreed upon USPS automation rate category. USPS will periodically change postage amounts and automation rate categories; upon USPS implementation dates, Contractor will apply the new postage amounts to each mail piece based on the weight and agreed upon USPS automation rate categories.

Contractor will apply postage using a meter or permit and apply the date of mailing on the envelope; Contractor will be reimbursed for meter or permit postage mail at the 3-digit, Letter Size Postage (AADC) automation rate, or similar rate. If USPS postage rate categories change in the future, Contractor and County will work together to determine the closest postage rate category to the current category. Postal permit numbers supplied by the County are used for all return envelopes.

The most current automation postage rates are located at <https://pe.usps.com>. It is understood that as USPS postal rates change, the postage rates for this Contract will also change and will be located at the referenced website.

The price per image for printing and mailing for each year must include the cost of materials (paper, envelopes, etc.) and cost of processing (pickup/courier service, receiving and batching data, printing, folding, inserting, presorting, delivery to the United States Postal Service [USPS], etc.). The price per image will equal to processing and printing one-side of a printed page, and one (1) each outgoing and remit envelope per completed mail piece. The price per image will be subjected to sales tax at the rate where it is produced.

Errors not remedied by Contractor's quality control, involving 100 or more pieces from a single mailing, will incur a penalty credit in favor of the County in the amount of \$.05 per letter plus reimbursement of any printing and postage paid by the County for the subject pieces. This will include client correspondence mailed after the target mailing date.

D. Contractor will be paid for inserts according to the following:

Offline Inserts - will be defined as correspondence previously printed and folded with the intention of being placed in an envelope as the completed product is being inserted. This will be charged as an insert by machine charge.

Offline Pre-Printed Inserts - will be defined where Contractor performs the printing of the insert prior, and separately inserts the document into the completed product. This will be charged at the per image pricing for printing, plus the "insert by machine" fee as referenced in Exhibit B-1.

Inline Inserts - will be defined as correspondence that is printed in-line with, and as a part of, the CalWIN documents. This will be charged the per image pricing for printing only.

Inserting by Hand (Manual Inserting) - Manual inserting is triggered when print files are 50 pieces or lower or subdivisions (e.g., envelope size, homeless mail, etc.) within a print file are 50 pieces or lower. Manual inserting may also be triggered if materials and/or job specifications **do not** allow for mail pieces to be inserted with high speed inserting equipment; in such cases, Contractor will notify County of all such instances. Manual inserting volumes are calculated for any portion of a job that cannot be inserted with high speed inserting equipment. The manual portion is separated from the automated portion in order to maintain automation for as much mail as possible. Barcode reading equipment is used when possible in the manual inserting department to maintain sheet and mail piece tracking.

For materials printed by Contractor, this is charged at the per image pricing for printing, plus the "insert by hand" fee per sheet as referenced in Exhibit B-1. For materials supplied by County, this is charged at the "insert by hand" fee per sheet as referenced in Exhibit B-1.

E. Contractor must repay the County for any disallowed costs identified by County through monthly reports, audits, Quality Assurance monitoring, or other sources within thirty days of receipt of notice from County that the costs have been disallowed. Contractor agrees that funds to be disbursed under the terms of this Contract will be withheld if repayment is not received by the County within thirty days of receipt of notice from County. Contractor may submit a written appeal to a disallowance to the County Health and Social Services Employment & Eligibility Services Deputy Director, or designee, within fifteen days of receipt of a disallowance notice. The appeal must include the basis for the appeal and any documentation necessary to support the appeal. No fees or expenses incurred by Contractor in the course of appealing a disallowance will be an allowable cost under this Contract and will not be reimbursed by County. The decision of the County regarding the appeal will be final.

II. METHOD OF PAYMENT

Upon submission of an invoice and a Solano County vendor claim by Contractor, and upon approval by County, County will pay Contractor monthly in arrears for fees and expenses actually incurred the prior month, or upon demonstrated completion of deliverables, as applicable, up to the maximum amount set forth in Section 3 of the Standard Contract. Monthly claims for payment should be submitted to County by the 10th day of the subsequent month. For example, an invoice for January should be submitted no later than February 10th. Notwithstanding Section 1 in Exhibit C, Contractor is required to submit all monthly claims for services provided through May 31st no later than June 10th.

Each invoice must include a written request(s) for any miscellaneous jobs requested by the County, a balance sheet for the postage deposit account, a Mailing Report, included as Exhibit B-2 of this Contract. - Pieces/Quantity
- Total Charged Amount.

Charges will be itemized on invoices, e.g., initial setup charge, price per image, for printing and mailing, additional inserts by machine and/or by hand, postage not covered by a county permit and IT changes/enhancements. Contractor must document all expenses submitted to County for payment under this Contract by maintaining complete and accurate records of all financial transactions related to the services performed under this Contract including, but not limited to, invoices, receipts, time sheets, itemized cost lists, and other official documentation that sufficiently support all charges under this Contract.

7. INSURANCE
