

ATTENDANCE TREND OVER TIME SOLANO COUNTY PARKS, FY2013/14 to FY2016/17

Contributing Factors for significant attendance swings include:

Beldens Landing attendance tracking was impacted by the theft of the payment machine in 2014 with delays in construction into 2015.

Lake Solano attendance was heavily impacted by park closures related to the Wragg Fire in summer 2015.

Lynch Canyon attendance was impacted by a prolonged season of access due to mild weather patterns in 2015/2016; and multiple weather related closures in FY2016/2017.

In FY2016/17, Sandy Beach attendance was impacted by a reduction in day use visitor turnover as visitors are observed to be staying for the whole day instead of segments therein.
