Note 1: Actual cost per Unit for Mental Health is from the latest submitted cost report - FY2015/16. FY2016/17 cost reports have not been submitted for both Mental Health and Substance Abuse services due to delays in the Department of Health Care Services issuing instructions. Once these cost reports are complete, fees may need to be adjusted to reflect more current data.

Note 2: Actual cost per Unit for Napa-Solano-Yolo Public Health Laboratory services include a 4% COLA but are still currently under review and may be subject to change.

Health and Social Services may need to adjust its fees charged to clients during the year as reimbursement rates from Medi-Cal, Medicare or other third party payers change or as the volume of services rendered changes to allow us to recover more of our actual costs. If actual costs for services, procedures or supply items increase, H&SS may elect to pass the increased cost on to the client. Any new procedures added during the fiscal year will be based on the higher of prevailing rates established by Medicare/Medi-Cal plus a multiplier or based on actual costs established by contract amounts or invoices.
