CONTRACT MUST BE EXECUTED BEFORE WORK CAN COMMENCE

EXHIBIT A
SCOPE OF WORK

CONTRACTOR SHALL BE RESPONSIBLE FOR THE FOLLOWING DUTIES:

Guidepost Solutions will provide security and low voltage systems design and construction administration services for the following scope of work.

1. Provision of new cameras and viewing workstations to obtain facility compliance with PREA requirements.
2. Provision of a new IP-based recording system to accommodate recording and storage of camera video for new and existing cameras at the same recording parameters used for the cameras at the Stanton Correctional Facility (15 Frames Per Second, 720P Resolution, 365 Days).
3. Provision of replacement IP-based cameras for all existing camera locations, including maintaining existing event-driven automatic camera call-up currently in-use at the Central Control Operator Workstations.
4. Provision of replacement of all light-and-switch-based Operator Control Panels with Touchscreenbased operator controls, maintaining all existing monitor and control functions, including elevator control.
5. Provision of a new dedicated intercom control system to gain a similar intercom call functionality to the Stanton Correctional Facility.
6. Provision of a dedicated Wi-Fi infrastructure and PDA-tablet devices, integrated with the security electronics system to allow remote control and monitoring from the tablets in a manner similar to the Stanton Correctional Facility.
7. Provision of network infrastructure to support the remote communication of plumbing control modules for inmate cells and showers to the facility Building Automation System, and the interface of the plumbing control modules to the security electronics system for control at the operator touchscreens.
8. Standardization on security electronics control equipment for commonality of user interface and maintenance between the Stanton Correctional Facility and the Justice Center while attempting to ensure that the standardized equipment specified is non-proprietary, "off-the-shelf" equipment that can be obtained and maintained by multiple security electronics integrators.

Work will be designed with the following project phases:

Pre-Design

Conduct kick-off meeting, perform initial facility site visits, and prepare documents for future site walks to determine exact camera placements and camera views for cameras designed in Phase 1 and Phase 2.

Phase 1

Provide new IP-based cameras to assist in facility compliance with PREA requirements. This includes the installation of cameras to maximize the view of cell dayroom spaces and other areas in the facility occupied by inmates. Provide new network switches in each control equipment location to accommodate new cameras. Provide new fiber-optic network infrastructure from the Main Security Electronics Equipment Room to all other Security Electronics Equipment Room Locations to facilitate new camera video network and provide additional infrastructure to support communication in future phases. Provide new NVR with storage in a RAID-6 configuration to accommodate 1-year of video storage of new IP cameras at 720p resolution, 15 images per second for each camera, and existing analog cameras at 4CIF resolution, 15 images per second. New computer-based video displays will be provided at viewing locations for real-time viewing of new video cameras at 6 existing control room locations, plus 9 new locations. At the completion of this phase there will be no change in controls for the user. The only change to the user will be the additional displays for the new cameras.

Phase 2

Replace existing facility analog cameras with new IP cameras. Provide connection to new network switches in Security Electronics Equipment Rooms. Expand NVR storage using a RAID-6 configuration to accommodate recording of all facility cameras for 1 year at 720p resolution, 15 images per second. Provide new programming interface to maintain the existing event-based automatic camera call-up on the new video displays provided in the control rooms in phase 1. Demolish existing analog camera matrix switch and recording equipment in the Main Security Electronics Equipment Room. Demolish existing analog camera monitors in the facility. At the end of this phase the control operators will still be using the existing light-and switch control panels for door and intercom control and monitoring, but camera video, including automatic event-based camera call-up will be displayed on the computer-based video displays.

Phase 3

Replace existing light and switch operator control panels with new computer-based graphic touchscreen controls. Connect existing programmable logic controllers to the new security electronics network using new network switches and the fiber-optic cabling provided in phase 1. Provide new digital intercom system controls and transfer existing intercom wiring to these controls. Because the new touchscreen control panels are network-based, and the light and switch control panels are hard-wired, both controls could be run simultaneously during the cut-over process. Doors would be simultaneously controlled, while intercoms would be accessible from the light-and-switch panels until they are transferred to the new intercom system where they will be controlled by the touchscreen. At the completion of this phase the intercom system will have the ability to transfer intercom control to or from any touchscreen control location and the intercom master communication between control rooms will be similar to the Stanton Correctional Facility. The intercom upgrade will also provide the infrastructure required for

Voice-over-Internet-Protocol communication required for the PDA control to be implemented in Phase 4. At the completion of this phase the user will be operating Touchscreen controls and viewing video with equipment in a similar configuration to the control locations at the Stanton Correctional Facility.

Phase 4

Provide wireless access points, connected to the network switches installed in Phase 2, and provide ruggedized Personal Digital Assistants (PDAs) and associated programming to allow control of the cell doors, lights, and intercoms in a manner similar to the controls at the Stanton Correctional Facility. Provide interface to the proposed cell toilet solenoids discussed in the "Solano County – Fairfield Jail Water Management System Upgrade" report dated May 24, 2018, and created by Canon Design, to facilitate control by the touchscreen operator's control panels. The PLC inputs and outputs abandoned in Phase III for the intercom system upgrade will be used for the connection/control of the toilet solenoids. Provide programming to include the control of the toilet solenoids at the touchscreen control panels. Coordinate with the manufacturer of the recommended toilet solenoid manufacturer to ensure compatibility of hardwired toilet solenoid shut-off.

SCOPE OF SERVICES

Guidepost Solutions will proceed with preparation of Construction Bid Documents, outlining the required scope of security upgrade work. Included will be complete technical bid documents (Plans & CSI specifications). Construction documents will be submitted at 50%, 95%, and 100% completion to County for review. Guidepost Solutions will also review County's Division 0 and 1 specifications and provide comments and input. Guidepost Solutions will conduct a design review meeting with County representatives. Submittal to the BSCC, if required, will be coordinated by the Owner, with support as necessary.

As part of Guidepost Solutions Construction Administration services, Guidepost Solutions will work with the County to develop bidder pre-qualification documents (application procedure, proposal requirements, evaluation criteria, and selection method). Guidepost Solutions will review and evaluate responses to the pre-qualification RFQ package. Guidepost Solutions will participate in pre-bid site walk and pre-bid conference. Guidepost Solutions will assist in evaluating bid proposals. During construction, Guidepost Solutions will also review contractor shop drawings and equipment submittals, respond to contractor questions during construction, and attend site meetings during construction and assist in final system acceptance. Upon completion of the project, Guidepost Solutions will review, reassemble, and resubmit to the county CAD as-built drawings. Construction Management will include support for project during construction. Guidepost Solutions services will include attending jobsite construction coordination meetings and spot check of as-built drawings for accuracy. Non-technical inspections (safety and health, security, labor compliance, etc.) are not included in Guidepost Solutions scope. Guidepost Solutions will chair periodic construction progress meetings, prepare meeting minutes, agenda, and monthly reports summarizing project status. Guidepost Solutions will assist in Final Acceptance Testing to assure that all equipment is fully operational.

SPECIAL REQUIREMENTS

Guidepost Solutions LLC will require the following information, materials, and service at Architect's expense:

1. Access to and consultation with the Architect, other project related individuals and entities; including timely responses and decisions reasonably requested by Guidepost Solutions LLC.
2. Access to written and graphic architectural, electrical, structural, mechanical and civil engineering plans and design specifications, and plans.
3. Detailed information, as required, on additional Owner equipment for interface to other systems.
4. Support of Owner's IT group for network coordination and connection to control equipment.

Contractor is responsible for County's receipt of a final request for payment 30 days after termination of this Contract.

B. A final undisputed invoice shall be submitted for payment no later than ninety (90) calendar days following the expiration or termination of this Contract, unless a later or alternate deadline is agreed to in writing by the County. The final invoice must be clearly marked "FINAL INVOICE", thus indicating that all payment obligations of the County under this Contract have ceased and that no further payments are due or outstanding.

B. Contractor further represents that Contractor possesses current valid appropriate licensure, including, but not limited to, driver's license, professional license, certificate of tax-exempt status, or permits, required to perform the work under this Contract.

7. INSURANCE

A. Without limiting Contractor's obligation to indemnify County, Contractor must procure and maintain for the duration of the Contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work under this Contract and the results of that work by Contractor, Contractor's agents, representatives, employees or subcontractors.

Any insurance proceeds in excess of the specified limits and coverage required, which are applicable to a given loss, shall be available to the County. No representation is made that the minimums shown above are sufficient to cover the indemnity or other obligations of the Contractor under this Contract.

The insurance afforded to the additional insureds shall be at least as broad as that afforded to the first named insured.

8. BEST EFFORTS

Contractor represents that Contractor will at all times faithfully, industriously and to the best of its ability, experience and talent, perform to County's reasonable satisfaction.

9. DEFAULT

A. If Contractor defaults in Contractor's performance, County shall promptly notify Contractor in writing. If Contractor fails to cure a default within 30 days after notification, or if the default requires more than 30 days to cure and Contractor fails to commence to cure the default within 30 days after notification, then Contractor's failure shall constitute cause for termination of this Contract.

B. If Contractor fails to cure default within the specified period of time, County may elect to cure the default and any expense incurred shall be payable by Contractor to County. The contract may be terminated at County's sole discretion.

C. If County serves Contractor with a notice of default and Contractor fails to cure the default, Contractor waives any further notice of termination of this Contract.

D. If this Contract is terminated because of Contractor's default, County shall be entitled to recover from Contractor all damages allowed by law.

10. INDEMNIFICATION

A. Contractor will indemnify, hold harmless and assume the defense of the County of Solano, its officers, employees, agents and elective and appointive boards from all claims, losses, damages, including property damages, personal injury, death and liability of every kind, directly or indirectly arising from Contractor's operations or from any persons directly or indirectly employed by, or acting as agent for, Contractor, excepting the sole negligence or willful misconduct of the County of Solano. This indemnification shall extend to claims, losses, damages, injury and liability for injuries occurring after completion of Contractor's services, as well as during the progress of rendering such services.

B. Acceptance of insurance required by this Contract does not relieve Contractor from liability under this indemnification clause. This indemnification clause shall apply to all damages or claims for damages suffered by Contractor's operations regardless if any insurance is applicable or not.

11. INDEPENDENT CONTRACTOR

A. Contractor is an independent contractor and not an agent, officer or employee of County. The parties mutually understand that this Contract is between two independent contractors and is not intended to and shall not be construed to create the relationship of agent, servant, employee, partnership, joint venture or association.

B. Contractor shall have no claim against County for employee rights or benefits including, but not limited to, seniority, vacation time, vacation pay, sick leave, personal time off, overtime, medical, dental or hospital benefits, retirement benefits, Social Security, disability, Workers' Compensation, unemployment insurance benefits, civil service protection, disability retirement benefits, paid holidays or other paid leaves of absence.

E. As an independent contractor, Contractor is not subject to the direction and control of County except as to the final result contracted for under this Contract. I. Contractor, with full knowledge and understanding of the foregoing, freely, knowingly, willingly and voluntarily waives the right to assert any claim to any right or benefit or term or condition of employment insofar as they may be related to or arise from compensation paid hereunder.

12. RESPONSIBILITIES OF CONTRACTOR

A. The parties understand and agree that Contractor possesses the requisite skills necessary to perform the work under this Contract and County relies upon such skills. Contractor pledges to perform the work skillfully and professionally. County's acceptance of Contractor's work does not constitute a release of Contractor from professional responsibility.

C. To fully comply with the terms and conditions of this Contract, Contractor shall:

L. 94-165).

C. Contractor represents that it will comply with the applicable cost principles and administrative requirements including claims for payment or reimbursement by County as set forth in 2 C.F.R. part 200, as currently enacted or as may be amended throughout the term of this Contract.

C. If County consents to the use of subcontractors, Contractor shall require and verify that its subcontractors maintain insurance meeting all the requirements stated in Section 7 above.

D. Assignment by Contractor of any monies due shall not constitute an assignment of the Contract.

22. UNFORESEEN CIRCUMSTANCES

Contractor is not responsible for any delay caused by natural disaster, war, civil disturbance, labor dispute or other cause beyond Contractor's reasonable control, provided Contractor gives written notice to County of the cause of the delay within 10 days of the start of the delay.

26. COUNTY'S OBLIGATION SUBJECT TO AVAILABILITY OF FUNDS

A. The County's obligation under this Contract is subject to the availability of authorized funds. The County may terminate the Contract, or any part of the Contract work, without prejudice to any right or remedy of the County, for lack of appropriation of funds. If expected or actual funding is withdrawn, reduced or limited in any way prior to the expiration date set forth in this Contract, or any subsequent amendment, the County may, upon written Notice to the Contractor, terminate this Contract in whole or in part.

B. Payment shall not exceed the amount allowable for appropriation by the Board of Supervisors. If the Contract is terminated for non-appropriation of funds:
