- Supervisor Thomson returned to the dais.*
- Legislative, Intergovernmental and Public Affairs Officer Michelle Heppner introduced the item.*
- Assemblymember Tim Grayson's Chief of Staff Matthew Powers and State Assembly Committee on Banking and Finance Principal Consultant Michael Burdick provided an overview of AB 539 (Limón D) California Financing Law: consumer loans: charges.*
- Supervisor Brown commented in opposition to the 36% interest rate plus*

add-ons and asked if it would be revisited to lower the percentage.

Mr. Burdick advised that it was typical for providers to start with much higher interest rates and noted that past legislation had not been successful.

Chairwoman Hannigan commented that the County's Legislative Committee had struggled with this as well and noted that this was a first bite into the issue. She noted that the industry was creating more customers for the County in that people needed safety net services to survive.

In response to a question from Supervisor Thomson, Mr. Burdick advised that the interest rate came about through negotiations and noted that the issue was more prominent in loans under \$10,000.

In response to a question from Supervisor Vasquez, Mr. Burdick noted that the shortest loan period was about 9 months and the longest was about 7 years.

On motion of Supervisor Vasquez, seconded by Supervisor Sperring, the Board approved a support position on AB 539 (Limón D) California Financing Law: consumer loans: charges. So ordered by 5-0 vote.

Ms. Heppner provided an overview of ACA 1 (Aguiar-Curry D) Local government financing: affordable housing and public infrastructure: voter approval.

Chairwoman Hannigan suggested including language to clarify the regional parks.

Ms. Heppner noted that the parks language was added to the amended version of the bill but was vague.

State Legislative Consultant Karen Lange noted that park language and language about open space had been added but was still unclear.

Supervisor Brown commented on section C regarding an annual independent performance audit.

Ms. Lange advised that a bond oversight committee could be formed by the Board and that the audit could be performed through a contract or internal audit.

Supervisor Brown commented on the makeup of the bond oversight committee.

Ms. Lange noted that there was a companion measure, AB 570, to compliment the measure that identified who would be exempt from serving on the bond oversight committee. She advised that she could speak with Assemblymember Aguilar's staff to request clarity on the makeup of the committee.

In response to a question from Supervisor Brown, Ms. Lange noted that she would also ask the staff about bond limits.

Supervisor Thomson commented on concerns with making another exception to 1% tax under Prop 13, on the amount of state debt that California was carrying, noted that about \$30 billion was spent servicing bond indebtedness. He noted that when it came to personal debt, California ranked third highest in the ten most populous states. He continued to provide statistical information about debt per capita and debt to personal income for the state. He advised that many people don't realize that bonds were like loans that have to be repaid. He then commented on recent increases in taxes and the importance of being mindful of the costs of these bonds moving forward.

In response to a question from Supervisor Spering, Ms. Lange noted that the assumption was that land improvements would be included but that she was not confident it would be for ongoing maintenance costs. -

Supervisor Spering advised that he did not support the aspect of operational costs but was supportive of land acquisition.

Supervisor Thomson commented on property tax break outs on a property tax bills and on the requirement for 55% passing rate for school bonds. He advised that lowering the percentage will make it easier to create bonds and would expand the number of bonds on the property tax bill. He noted that he would support the legislation even though he felt it was not a best approach and advised that the public should be able to weigh in on the additional burden.

Supervisor Brown noted that the tax could be used only for the purpose in the proposition and asked that this language section not be removed. She then commented on the success of past school bonds and that there were other debts still out there like redevelopment. She advised that she was supportive of the legislation but noted the need to be cogniscent and careful.

County Counsel Dennis Bunting noted that there were bond limits and fiscal statements that were evaluated for counties, cities and special districts but that the state did not have a bond limit.

Supervisor Thomson commented on drops in assessed value similar to what happened in 2008/09.

Supervisor Vasquez advised that there would always be a debate as to whether it is wasteful spending or not.

Chairwoman Hannigan invited members of the public to address the Board on this matter and the following comments were received:

A) George Guynn, Jr., Suisun City, commented in opposition to the legislation and to bonds.

Supervisor Spering commented on Mr. Guynn's remarks noting that he opposed opportunities that cities and agencies were putting forward to reduce taxes.

Ms. Lange provided the Board with an overview of state activities and other legislation of interest to the County.

On motion of Chairwoman Hannigan, seconded by Supervisor Spering, the Board approved a support position on ACA 1 (Aguilar-Curry D) Local government financing: affordable housing and public infrastructure: voter approval. So ordered by 5-0 vote.

Supervisor Vasquez also commented on the twin tunnel project noting that it was still being worked on.

Supervisor Thomson commented on concerns with the State's single water tunnel project.

Supervisor Spering asked if the legislature was separating homelessness from affordable housing and if there had been any discussion on how to deal with mentally ill homeless.

Ms. Lange advised that there were different sets of bills for each matter and that SB 1045 was intended to deal with homeless drug addicted individuals. She advised that it was cleanup legislation but it was not covering the entire state. She advised that there was some proposals being put forward to do more treatment in the jails.

Supervisor Spering commented that affordable housing was important but noted that without intervention it didn't help to get the homeless off the street. He advised that trash resulting from the homeless was starting to have an impact on the environment in addition to already impacting communities and noted that it was a difficult problem to solve without assistance in funding for prevention.

Supervisor Vasquez commented on the public health aspect of homeless sheltering in place along freeways and railroads and noted that it would create a health issue. He then asked how the legislature was looking at creating temporary shelter or housing.

Ms. Lange advised that the priority was funding for temporary housing and noted the challenges of how to deal with litter and trash when governments could not criminalize it. She advised that the policy question about throwing money into a short term solution was an issue the legislature would need to work through.

Supervisor Vasquez provided information on past efforts to provide temporary housing units during the Dust Bowl and the Depression that provided a place for migrants to stay.

Supervisor Thomson commented on the need to do things smarter and at a

less cost, noting that someone who was homeless had to be arrested in order to receive treatment currently.

Chief Information Officer/Registrar of Voters Tim Flanagan introduced the item. He noted that that the original documents presented to the Board included a recommendation for execution of a Request for Information that needed to be reflected as a Request for Proposal as recommended by County Counsel.

Assistant Registrar of Voters John Gardner provided an overview of what a regional voting center model would entail as opposed to the traditional poll place model.

Chairwoman Hannigan commented in support of voting by mail.

Chairwoman Hannigan invited members of the public to address the Board on this matter and the following comments were received:

A) George Guynn, Jr., Suisun City, commented in support of the department's recommendation to stay with a traditional polling place model.

B) Terry Tucker, representing the Solano County Taxpayer's Association, commented in opposition to the regional voting center model and in support of the traditional polling place model.

Mr. Flanagan noted that the state had decertified voting equipment in order to modernize the equipment.

Mr. Tucker asked if voter fraud was a reason to the decertification and noted that the association was concerned about voter fraud. Mr. Flanagan noted that the decertification was made primarily due to aging equipment and the need to modernize for consistency across the state.

C) Mr. Tipton, unincorporated Vallejo, commented on the number of individuals who voted at polling places.

Mr. Gardner noted that the number of people voting had fluctuated depending on the election periods.

Mr. Tipton recommended going back to the punch card method and improving voter turnout.

Chairwoman Hannigan noted that the voter turnout also had to do with what was on the ballot.

On motion of Supervisor Thomson, seconded by Supervisor Sperling, the Board adopted Resolution No. 2019 - 55 authorizing the submission of the application for State funds for \$1,409,500 to replace existing voting systems; Authorized the County Administrator or designee to conduct all negotiations, execute and submit all documents including, but not limited to applications which may be necessary for the completion of the agreement; and Authorized the Registrar of Voters' Office to execute a Request for Proposal to evaluate and select a new voting system. Assessor/Recorder Marc Tonnesen introduced the item and provided an overview of the department's provision of data and its policy to charge a flat fee for the data to be provided to public partner agencies.

Chairwoman Hannigan invited members of the public to address the Board on this matter and the following comments were received:

A) Donald Tipton, unincorporated Vallejo, commented in opposition to the fee

waiver request.

B) George Guynn, Jr., Suisun City, commented in opposition to the fee waiver request.

Supervisor Thomson commented on the request and noted it was a good public policy to provide the service.

Supervisor Brown asked if this was a one-time request as MTC/ABAG was outside the County.

Mr. Tonnesen noted that Metropolitan Transportation Committee and Association of Bay Area Governments (MTC/ABAG) did not fall within the policy parameters and that he was not able to say whether the agency would ask for a fee waiver again in the future.

Chairwoman Hannigan commented on the policy. Mr. Tonnesen noted that the department charged a flat fee of approximately \$100 to public agencies that resided within the County. He noted that MTC/ABAG did not reside within the County and would not fall within the flat fee requirement.

Supervisor Thomson made a motion to approve the fee waiver and reaffirm the department's policy.

In response to a question from Supervisor Spering, Mr. Tonnesen noted that out of county requests for fee waivers would come back to the Board for approval.

Supervisor Spering commented on how building permits are measured and noted that this data would be helpful.

County Administrator Birgitta Corsello suggested that fee waiver approvals include a prohibition for reselling the data to someone else.

Supervisor Thomson noted that he was amending his motion to include the prohibition.

Mr. Tonnesen advised that he would include the prohibition in the contract with the agency.

Supervisor Spering recommended only adding language against selling the data and that the agency should be allowed to share it internally.

On motion of Supervisor Thomson, seconded by Supervisor Spering, the Board approved a one-time fee waiver in the amount of \$48,156.04 for the Metropolitan Transportation Commission/Association of Bay Area Governments for certain Assessor/Recorder data, with the direction that the data may not be sold to any other party; and Approved the Assessor/Recorder's long-standing practice of waiving or charging a reduced fee for public agency partners located within Solano County.
