SCOPE OF WORK

PERFORMANCE STATEMENT:

The purpose of this Agreement and Scope of Work is to secure a master agreement with Dreyfuss + Blackford Architecture to provide any, all, or individual professional and construction management services to support the Division of Capital Projects Management needs in a timely fashion. This may include specialized technical support services with access to related engineering services. Services will be activated by corresponding individual task order on an as- needed basis.

Dreyfuss + Blackford Architecture, as the single point of contact and responsibility, will use its best knowledge and efforts to manage project budgets, schedules, work of other consultants and all other activities required to complete individual work tasks or successfully deliver completed, accepted projects to Solano County. Dreyfuss + Blackford Architecture expressly agrees to present proposed Project Manager(s) and other personnel for approval by Solano County for an assigned task order. Once approved by Solano County, Dreyfuss + Blackford Architecture agrees that no change in the designated Project Manager or approved personnel shall occur without the prior written consent of the County.

The County's Request for Qualifications (RFQ) Number 906-0201-19, and Dreyfuss + Blackford Architecture's response, dated March 4, 2019, and any supplemental information provided during the April 8, 2019 interview are, by this reference, incorporated into this Contract as if fully set forth here as it applies to this scope of work and fees.

Dreyfuss + Blackford Architecture acknowledges that work efforts and projects will typically be administered using the following Project Management Organization:

Executive Committee - This group has authority to make final decisions concerning project issues that are outside the established scope, cost and schedule of each project/work effort. This committee, whose composition may vary from project to project, consists of representatives from the Executive Management Group of senior County personnel and executive-level staff of the City in which the project resides. Typically, the selected Technical Support Services firm will be called on as required to provide or coordinate provision of graphic information and/or make presentations before the Executive Committee to facilitate project communication and issue resolution.

Steering Committee/Core Group - This committee/group has authority to make final decisions concerning project issues within the project's established scope, cost and schedule. This committee/group normally consists of representatives from County Departments/Divisions who are stakeholders in the project. The selected firm(s) will be called on to provide (or coordinate provision of) graphic information, make presentations before the Steering Committee/Core Group to facilitate project communication and issue resolution, and manage Steering Committee/Core Group meetings. The Core Group, composed of selected members of the Steering Committee, may meet more frequently than the Steering Committee, to expedite project-related issues or solve sensitive challenges.

Work Group - This group performs the day-to-day work and prepared technical studies required to progress each project/work effort, implements the decisions made by the Executive/Steering Committees and formulates recommendations for consideration by these other committees. This group, whose composition may vary from project to project, also consists of representatives from various County Departments/Divisions who are stakeholders in the project/work effort. The selected Technical Support Services firm(s) will organize and actively participate in all Work Group meetings for assigned projects/work efforts and will be called on as required to provide or coordinate provision of graphic information and/or make presentations before the Work Group to facilitate project communication and issue resolution. Selected firms will primarily interact with Work Group members during the course of a project.

Authorities Having Jurisdiction - The Department of Resource Management acts as the primary local regulatory authority having jurisdiction in matters regarding building codes, planning and environmental issues for County-owned projects. Other agencies, such as the fire departments in local cities, will also have regulatory authority over specific aspects of the work performed under the agreements resulting from this solicitation. Depending on specific project needs, other federal, state, and local agencies may also be Authorities Having Jurisdiction, including utility providers.

30. WAIVER

Any failure of a party to assert any right under this Contract shall not constitute a waiver or a termination of that right, under this Contract or any of its provisions.

31. CONFLICTS IN THE CONTRACT DOCUMENTS

The Contract documents are intended to be complementary and interpreted in harmony so as to avoid conflict. In the event of conflict in the Contract documents, the parties agree that the document providing the highest quality and level of service to the County shall supersede any inconsistent term in these documents.

36. EXECUTION IN COUNTERPARTS

This Contract may be executed in two or more counterparts, each of which together shall be deemed an original, but all of which together shall constitute one and the same instrument, it being understood that all parties need not sign the same counterpart. In the event that any signature is delivered by facsimile or electronic transmission (e.g., by e-mail delivery of a ".pdf" format data file), such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or electronic signature page were an original signature.

38. ENTIRE CONTRACT

This Contract, including any exhibits referenced, constitutes the entire agreement between the parties and there are no inducements, promises, terms, conditions or obligations made or entered into by County or Contractor other than those contained in it.

EXHIBIT D
SPECIAL TERMS AND CONDITIONS

1. CONTRACT EXTENSION

Notwithstanding Section 2 of the Standard Contract, and unless terminated by either party prior to contract termination date, at County's sole election, this Agreement shall be automatically extended up to 90 days beyond the contract termination date to allow for continuation of services and sufficient time to complete a novation or renewal contract. In the event that this Agreement is extended, compensation for the extension period shall not exceed (contract amount).

2. CONFIDENTIAL RECORDS

Contractor acknowledges that any information generated, received or disseminated pursuant to its performance under this Contract is confidential and shall not be disclosed in any manner unless authorized by law. Furthermore, Contractor warrants that Contractor is knowledgeable of Welfare and Institutions Code sections applicable to the subject of this Contract, particularly, sections 10850 and 11478.1 and will abide by its requirements.

3. STANDARD OF CARE

Architecture and/or Engineering firms in responsible control of project design will be requested to include the following section in their contract with the County:

The Consultant shall perform services consistent with the professional skill and care ordinarily provided by architects/engineers/professional services consultants practicing in the same or similar locality under the same or similar circumstances ("Standard of Care"). Notwithstanding any other provision of this Agreement, this Standard of Care shall govern the Contractor's services and any clause which purports to heighten the standard of care shall be read as if it is subject to the Standard of Care.

The Architect shall provide services and produce Instruments of Service, defined as drawings, specifications and other documents in accordance with the Standard of Care. Owner and Architect acknowledge that no set of Instruments of Service is entirely free of errors and omissions and that the existence of an error or omission does not automatically constitute a breach of the Standard of Care and that the Instruments of Service, while still consistent with the Standard of Care, may contain errors, omissions, and inconsistencies (collectively "Errors") at the time they are provided to Owner.

The Owner agrees that for portion of projects consisting of construction values \$100,000 or less, if the Errors do not increase the Construction Cost by Change Order by more than ten percent (10%), the Owner releases Architect from any liability for the increase in the Construction Cost in connection with the Errors. The Owner agrees that for the portion of projects consisting of construction values \$100,000 to \$1,000,000, if the Errors do not increase the Construction Cost by Change Order by more than five percent (5%), the Owner releases Architect from any liability for the increase in the Construction Cost in connection with the Errors. The Owner agrees that for portion of projects consisting of construction values over \$1,000,000, if the Errors do not increase the Construction Cost by Change Order by more than three percent (3%), the Owner releases Architect from any liability for the increase in the Construction Cost in connection with the Errors. The Owner shall establish a reasonable contingency line item in the construction budget to

cover additional costs resulting from such Errors. This release does not limit Architect's liability for increases beyond the applicable percentages in the event the Instruments of Service are not prepared in a manner consistent with the Standard of Care. Construction Cost increases by Change Order as a result of Owner requests, changes in governmental agency requirements after previous approval, errors made by the Contractor or Owner's consultants, or unforeseen conditions are not costs due to Errors of Architect/Engineer. The Architect/Engineer shall not be responsible for increases to the Construction Cost for items omitted from the Instruments of Services, but that are necessary for the proper completion of the Project, except for 15% percent of the negotiated change order, which shall be the established amount to recognize the premium cost that may be necessary in order to add or retrofit an omitted item. Any Error in the Instruments of Service, whether or not in violation of the Standard of Care, shall be promptly corrected by Architect/Engineer without charge to Owner upon discovery by or notice to the Architect/Engineer. In the event that responsibility for the error or omission is shared by parties other than the Architect/Engineer, the cost split will be determined in accordance with the dispute resolution provisions of the contract.
