

NPLH TA funds will be added to the Department's FY2017/18 Budget Appropriations. No County General Fund is associated with this grant.

### **DISCUSSION:**

On July 1, 2016, Governor Brown signed into legislation AB 1618, to create the NPLH Program, which dedicated \$2 billion in bond proceeds for the development of permanent supported housing for persons who are in need of mental health services and are experiencing homelessness, are chronically homeless, or are at-risk of chronic homelessness. The bonds are repaid by funds from the Mental Health Services Act, reducing the statewide MSHA allocation to the counties.

The NPLH TA funding is the first in a series of funding opportunities related to the NPLH Program. In Summer 2018, there will be a non-competitive application where Solano County is eligible for \$1.7 million. Additional funds will be available through a competitive application process. These TA funds will assist the Department in its preparation to compete for these grant funds.

For purposes of these technical assistance funds, eligible uses include costs associated with the planning, design, application for, and implementation of, a NPLH project, including:

- 1) Applying for NPLH Program funds
- 2) Implementing NPLH activities
- 3) Coordinating funded activities with local homelessness systems, including Coordinating Entry Systems
- 4) Collecting data, sharing data amongst multiple systems, evaluating program activities, sharing data among multiple systems, and implementing regulatory and homelessness systems
- 5) Planning for delivering a range of supportive services to tenants.
- 6) Promote evidence-based service delivery, including soliciting consumer feedback,
- 7) Develop or implement community acceptance strategies
- 8) Hire staff or consultants to assist with:
  - a. Identifying potential sites,
  - b. Developing a process to identify potential developers, or development sponsors,
  - c. Monitoring activities of developers or development sponsors to ensure adherence with NPLH Program requirements.
  - d. Brokering relationships and coordinating activities between parties involved in providing housing and/or services to members of the Target Population, including but not limited to, the county, affordable housing developers and/or housing authorities, service providers, and local Coordinated Entry Systems, and
  - e. Identifying and applying for additional resources for capital, supportive services, and operation costs.
- 9) Coordinate and partner with other county and community providers (e.g., social services, healthcare, education, homeless providers) to increase understanding of the intersections and overlapping needs of these sectors' shared homeless clientele
- 10) Coordinate and communicate with the Department of Housing and Community Development, the Department of Health Care Services, and other State agencies to support learning, identification of additional training and other technical assistance needs, regional collaboration
- 11) Implement other capacity-building activities related to creating housing models suitable for the Target Population
- 12) Develop or update a county homeless plan.

Once the TA funds are awarded, the County will be required to enter into a Standard Agreement with HCD requiring the parties to comply with the requirements and provisions of the TA guidelines as well as generally applicable contracting rules and requirements.

**ALTERNATIVES:**

The Board could decide not to approve this grant application and not obtain the Technical Assistance Grant. This alternative is not recommended as the TA grant will assist the County in preparing an application for the NPLH housing funds. In addition, receipt of these TA funds does not obligate the county to apply for the NPLH housing funds when they become available.

**OTHER AGENCY INVOLVEMENT:**

There are no other agencies involved with this item.
