Master of Science, Health Policy; August 2016

Johns Hopkins University School of Nursing, Baltimore, MD

Bachelor of Science, Nursing; December 2013

Hunter College, New York, NY

City University of New York, Bachelor of Science, Community Health, *With Excellence*; May 2012

certifications

National Provider Identifier, number 1629425004

California Board of Registered Nursing, Registered Nurse; license number 95029154

California Board of Registered Nursing, Public Health Nurse; license number 545142

clinical experience

Contra Costa County, Public Health

Public Health Nurse: April 2023 to Present, Fulltime

As a member of the Enhanced Care Management (ECM) team I provide case management services to County residents who receive Medi-Cal. I conduct home visits to support members in planning and organizing their needs relating to health care and other social services.

Alameda County Health Care Service Agency, Health Care for the Homeless

Registered Nurse III: March 2018 to March 2023, Fulltime

RN Program Lead for Shelter Health from August 2020 to March 2023. Street Health RN Care Manager, March 2018 to August 2020. I am adept at providing care in non-traditional settings including homeless shelters, street based homeless encampments, and non-clinic based settings. I held responsibility for program planning and development, writing and review of policies and procedures, scheduling outreach, oversight and management of RNs and ancillary staff, engaging clients in psychiatric and medical care, overdose prevention training and naloxone distribution for patients and community partners, patient assessment, triage of appropriate service level, clinical follow up and monitoring, data tracking, formulary management, and quality assurance evaluation.

San Francisco Department of Public Health, Street Medicine

Registered Nurse P103: March 2016 to March 2018, 20 hours per week

I worked collaboratively in a small team to engage and stabilize chronically homeless individuals, helping to prevent the harmful effects of homelessness, establish care for chronic conditions, and secure permanent housing. We utilized acuity-based, data-driven, and outcomes-oriented processes to meet program goals.

Solano County Family Health Services, Public Health Nurse

PHN Quality Improvement: October 2016 to March 2018, 20 hours per week

I reinvigorated the quality improvement program for the County's three primary care clinics. I was responsible for oversight and guidance of clinical quality assurance and improvement. I monitored, developed, and applied quality improvement measures to clinical practice. One year after program implementation Medi-Cal Managed Care *pay for performance* revenue increased 18% after controlling for utilization.

LifeLong Medical Care, Downtown Oakland Clinic

Registered Nurse: July 2014 to October 2016, 40 hours per week

I provided direct patient care, telephone triage, and administrative support of primary care providers. I worked offsite in partnership with Bay Area Community Services to provide nursing care to formerly homeless seniors residing in permanent supportive housing.

work experience

University of California San Francisco, Institute for Health Policy Studies

Staff Research Associate 2, Lupus Outcome Study: August to November 2015, part-time 8 hours per week

Conducted qualitative interviews used as the culminating component of a longitudinal research study funded by the Robert Wood Johnson Foundation.

California Department of Public Health, STD Control Branch

Student Assistant: July to October 2015, part-time 20 hours per week

Applied National Quality Measures related to hepatitis C to California Department of Public Health documents, updated the hepatitis C toolkit for primary care providers, edited the hepatitis C chapter of an MSM toolkit, and drafted a frequently asked questions document pertaining to hepatitis B vaccination for health care workers.

Jared T. Bunde MS, RN-BC, PHN

teaching experience

Holy Names University, School of Nursing

Adjunct Professor, Fall 2021

Taught the classroom component of Psychiatric and Mental Health Nursing to accelerated undergraduate students.

University of California San Francisco, School of Nursing

Teaching Resident, Clinical Prevention and Population Health: January to March 2016, part-time 8 hours per week

I lead innovative student learning activities, including vignettes for two in-class discussion and two online discussion forums. Activities included guiding student discussions using the collaborative learning environment (CLE) for the course, grading student assignments using a standardized grading rubric, developing test items and becoming familiar with test item analysis, and facilitating a seminar on health and homelessness.

volunteer experience

National Health Care for the Homeless Council, Nashville, TN

Clinicians Network Steering Committee, Member, May 2022 to April 2028

City of Vallejo, Housing and Community Development Commission, Vallejo, CA

Commissioner, June 2021 to June 2029

Serve on the Housing and Community Development Commission that reviews budgets and proposals for the City of Vallejo. The committee advises the City Council on items related to housing and community based organizations.

Berkeley N.E.E.D., Berkeley, CA

Board of Directors, March 2014 to February 2017

Berkeley N.E.E.D. volunteers provide overdose prevention education and distribute Naloxone, an opioid antagonist to prevent overdoses.

Johns Hopkins Hospital, Baltimore, MD

Osler 8/Polk Service; April 2013 to December 2013

Volunteered to provide patient service tasks on Osler 8, an HIV and infectious disease inpatient hospital unit.

Picture the Homeless, Bronx, NY

February to May 2011

Worked on community based participatory civil rights campaign conducting interviews with persons experiencing homelessness.

professional affiliations

Sigma Theta Tau International, Alpha Eta Chapter member, inducted June 2016
